The Routledge Guidebook to Kierkegaard's Fear and Trembling - John Lippitt 2015-10-16

Søren Kierkegaard is one of the key figures of nineteenth century thought, whose influence on subsequent philosophy, theology and literature is both extensive and profound. *Fear and Trembling*, which investigates the nature of faith through an exploration of the story of Abraham and Isaac, is one of Kierkegaard's most compelling and widely read works. It combines an arresting narrative, an unorthodox literary structure and a fascinating account of faith and its relation to 'the ethical'. The Routledge Guidebook to Kierkegaard's *Fear and Trembling* introduces and assesses: Kierkegaard's life and the background to *Fear and Trembling*, including aspects of its philosophical and theological context. The text and key ideas of *Fear and Trembling*, including the details of its account of faith and its connection to trust and hope. The book's reception history, the diversity of interpretations it has been given and its continuing interest and importance. This Guidebook assumes no previous knowledge of Kierkegaard's work and will be essential reading for anyone studying the most famous text of this important thinker.

Vedic Cosmography and Astronomy - Richard L. Thompson 2004

The mysteries of the fifth Canto of the Srimad Bhagavatam have long puzzled students of Vedic cosmography and astronomy. Confronted with a description of the universe that seems much at variance with the information provided by our senses and standard astronomical calculations, foreign observers and even Indian commentators from the middle ages up to the present have concluded that the Bhagavatam's account elaborated in other Puranas must be mythological. On the other hand the same persons have been much impressed with Vedic astronomical treatises the jyotisastras which provide remarkably accurate measurements of the solar system.

Kriya Yoga Vichara - Ryan Kurczak 2016-01-24

The practice of Kriya Yoga Vichara integrates techniques based on the teachings of Paramahansa Yogananda and the method of Self-Inquiry

presented by Sri Ramana Maharshi. In this book, you will find descriptive reviews of the methods taught during Kriya Initiations, how to effectively practice Vichara, and how to integrate the two for optimal results.

Kriya Yoga Vichara is for those advanced individuals willing to put forth the required Self-effort that results in the realization of Eternal Grace. "It is the internal knowledge of the Self, which never waivers or dims, that is the true mark of a realized being. And no one will ever know that but you. This is the way of yoga. This is the result of Vichara (Self-inquiry) supported by Kriya (yogic techniques)."

The Seven Steps to Awakening - Ramana Maharshi 2010

The Seven Steps to Awakening is the most powerful collection of quotes ever assembled on the subject of how to directly experience the true Self whose nature is Infinite-Eternal-Awareness-Love-Bliss and how to bring

the impostor self, its tricks and all suffering to a final end in this lifetime. Most books on the subject of Self-realization are written by those who have only conceptual knowledge and no direct experience of the infinite Self. All seven of the sages quoted in *The Seven Steps to Awakening* lived in the infinite and their knowledge came from their direct experience of the infinite Self. The quotes in *The Seven Steps to Awakening* are doorways to liberation and a loving transmission from the Infinite Self to you. When the impostor self attempts to derail you from your journey to Awakening, reading the quotes in *The Seven Steps to Awakening* can inspire and encourage you to get back on track. Only the most essential and most powerful quotes that have no distractions or detours were selected for *The Seven Steps to Awakening*. The first collection of quotes describes how to tell the difference between a conceptual journey and a journey to Awakening. The second points out that the world, etc. is a dreamlike illusion. The third reveals why it is necessary to bring the impostor self to its final end. The fourth is about the importance of increasing your desire for liberation. The fifth is for the purpose of encouraging, inspiring and motivating you to actually practice all seven steps. The sixth is about turning your attention inward. The seventh describes the most rapid, direct and effective method that brings the impostor self, its tricks and all suffering to their final end so that you can remain forever in the true Self whose nature is Infinite-Awareness-Love-Bliss.

Wake Up and Roar - H. W.L. Poonja 2007-08-01

A team of mountain climbers were scaling Mount Everest and they camped below the summit. Another team was returning from the top and saw them camped there. "Why are you camped?" they wanted to know. "We are waiting for our map," they replied. "We forgot our map at the base camp and we have sent a sherpa back to retrieve it. So we are waiting." "But from here you do not need a map!" the returning team replied. "There are no avalanches, no problems. From here, go straight to the top! No map is necessary. So drop all your maps and baggage. Go directly to the summit from here." —From *Wake Up and Roar*

Existence Shining As Awareness - James Swartz 2021-02-24

Ramana Maharshi's Sat Darshanam was revealed in the middle of the twentieth century, and the Kena Upanishad was revealed seven thousand years ago by an unknown seer, yet the self-evident truth that both reveal is timeless. To properly set foot on the path of knowledge means that one should not ignore the mind, attempt to transcend or remove it, but to cultivate it assiduously by gradually shifting one's attention from one's person - the "I-sense" - to Being itself, which is seemingly hidden

"behind" the mind.s commentary is dedicated to Ramana Maharshi, whose teachings about the nature of freedom have been largely misunderstood by Western seekers who fail to grasp that Ramana does not endorse the view that liberation is a discrete experience of one's innermost Self, Existence shining as Awareness.

Chi siamo e da dove veniamo? Che cos'è un percorso spirituale e come lo si può intraprendere? Che cos'è la mente? E cosa c'è oltre la mente? Chi è davvero l' "io" che pensa e che fa esperienza del mondo? Qual è il mistero racchiuso nella vita e nel profondo dell'anima umana? Queste sono alcune delle domande fondamentali che da sempre hanno affrontato coloro che si sono messi alla ricerca di sé stessi. E se ciò che hai cercato per tutto questo tempo fosse una parte di te che è sempre presente ma che rimane nascosta? I maestri spirituali ci spiegano che ciò che cerchiamo è già lì, ma dobbiamo riconoscerlo, svegliarci, diventarne consapevoli. Who Am I? - Sri Ramana Maharshi 2016-09-10

Who am I? is the title given to a set of questions and answers bearing on Self-enquiry. The questions were put to Bhagavan Sri Ramana Maharshi by Sri M. Sivaprakasam Pillai, about the year 1902. Sri Pillai, a graduate in philosophy, was at the time employed in the Revenue Department of the South Arcot Collectorate. During his visit to Tiruvannamalai in 1902 on official work, he went to Virupaksha Cave on Arunachala Hill and met the Maharshi there. He sought from him spiritual guidance and solicited answers to questions relating to Self-enquiry. As Bhagavan was not talking then, not because of any vow he had taken but because he did not have the inclination to talk, he answered questions put to him by writing. As recollected and recorded by Sri Sivaprakasam Pillai, there were thirteen questions and answers to them given by Bhagavan. This record was first published by Sri Pillai in 1923 (in the original Tamil), along with

a couple of poems composed by himself relating how Bhagavan's grace operated in his case by dispelling his doubts and by saving him from a crisis in life.

Nei Kung - Kosta Danaos 2002-02-01

Explains the science behind the practice of nei kung, the elemental nature of yin and yang energy--the two components of ch'i, and how learning to control the yang energy in our ch'i can result in the release of dynamic energy. • Establishes the existence and understanding of nei kung in the practices of many of the world's ancient cultures. • Includes a step-by-step guide to the meditation that forms the basis of the practice of nei kung. • By Kosta Danaos, author of The Magus of Java and apprentice to an immortal of the Mo-Pai tradition. In 1994 Kosta Danaos was accepted as a student by John Chang, a Chinese-Javanese Taoist in the Mo-Pai tradition and a master of nei kung, the practice of harnessing and controlling our body's bioenergy, or ch'i. Nei Kung: The Secret Teachings of the Warrior Sages describes the practice of nei kung and how learning to control our ch'i can result in the release of dynamic energy that can be used for healing, pyrogenesis, telekinesis, levitation, telepathy, and more. Danaos suggests that both components of ch'i--yin and yang energy--are fundamental to the earth and to life and were recognized and used in many of the world's ancient cultures. Though we have forgotten how to access them, these components are in fact elemental parts of us. The author explains that we first must open our minds to the fact that the power of ch'i is real. Next, in learning to control our ch'i as a whole, we must learn to channel our yang energy in productive ways--a potential we all possess. To help readers understand their capacity to connect with this inner elemental power, the author offers a fascinating blend of teachings that include sound scientific

theories explaining much of the "magic" of nei kung. He also offers historical, linguistic, artistic, and literary proof of the presence and understanding of nei kung throughout the ages and a step-by-step introduction to several types of simple meditation--fundamental to directing one's ch'i. With his engaging storytelling and disarming humor, his physics-based explanations for seemingly mystical phenomena, and his reassurances that he's really no different from the rest of us, Kosta Danaos shows us that once we remember our capacity to harness our yang energy, we can change ourselves and our world.

Papaji - H. W. L. Poonja 1993

Words of Grace - Sri Ramana Maharshi 2014-08-18

EVERY living being longs always to be happy, untainted by sorrow; and everyone has the greatest love for himself, which is solely due to the fact that happiness is his real nature. Hence, in order to realise that inherent and untainted happiness, which indeed he daily experiences when the mind is subdued in deep sleep, it is essential that he should know himself. For obtaining such knowledge the enquiry, 'Who am I?' in quest of the Self is the best means. 'WHO AM I?' I am not this physical body, nor am I the five organs¹ of sense perception; I am not the five organs of external activity², nor am I the five vital forces,³ nor am I even the thinking mind. Neither am I that unconscious state of nescience which retains merely the subtle vasanas (latencies of the mind), while being free from the functional activity of the sense-organs and the mind, and being unaware of the existence of the objects of sense-perception.

Ramana Maharshi - J Glenn Friesen 2015-11-02

Ramana Maharshi's experience of enlightenment was not as simple as his devotees have assumed. Ramana's own interpretations of his experience were influenced by non-traditional Hindu ideas of living liberation (jivanmukti), as well as by Western sources like Madame Blavatsky's theosophy, and even by Christian sources. Some of these influences came from his disciple Ganapati Muni, as well his early the biographers Frank H. Humphreys, B.V. Narasimha Iyer and Paul Brunton. All of these people later sought other gurus. Brunton later admitted that he used

Ramana as a "peg" for his own previous ideas. In view of this information, how should we view Ramana today?

Ramana Maharshi - Gabriele Ebert 2015-12-03

Since his death nothing has changed, on the contrary, Ramanashram and Arunachala have become a vibrant spiritual centre and more and more people are showing an interest in the teachings of Ramana Maharshi.

The Power of Eight - Lynne McTaggart 2017-09-26

Discover how to tap into your extraordinary human capacity for connection and healing using astonishing new findings about the miraculous power of group intention in this new book by the author of the international bestsellers *The Intention Experiment* and *The Field*. In *The Power of Eight*, Lynne McTaggart—whose “work has had an unprecedented impact on the way everyday people think of themselves in the world” (Gregg Braden, author of *The Divine Matrix*)—reveals her remarkable findings from ten years of experimenting with small and large groups about how the power of group intention can heal our lives and change the world for the better. When individuals in a group focus their intention together on a single target, a powerful collective dynamic emerges that can heal longstanding conditions, mend fractured relationships, lower violence, and even rekindle life purpose. But the greatest untold truth of all is that group intention has a mirror effect, not only affecting the recipient but also reflecting back on the senders. Drawing on hundreds of case studies, the latest brain research, and dozens of McTaggart’s own university studies, *The Power of Eight* provides solid evidence showing that there is such a thing as a collective consciousness. Now you can learn to use it and unleash the power you hold inside of you to heal your own life, with help from this riveting,

highly accessible book.
