Dello spirito libero - Tronti Mario 2015-07-30

Si dice che le categorie del Novecento non siano in grado di capire il presente. Falso. Solo il Novecento ci fa capire il dopo; solo chi lo ha attraversato e sofferto, tutto intero, può interpretare il presente con strumenti affilati. Mario Tronti, che il xx secolo l'ha vissuto da protagonista intellettuale - da marxista eretico - e ne è uscito sconfitto, non ha rinunciato all'esigenza, e al dovere, di capire. Oggi la libertà di pensiero è garantita, ma non è concesso un pensiero di libertà: il capitale ha conquistato tutto il mondo, e così è arrivato a conquistare anche tutto l'uomo. Non solo trattato di filosofia politica, *Dello spirito libero* è anche e soprattutto un capolavoro di resistenza: un'opera composta di frammenti, perché «non si può ormai pensare e scrivere che per frammenti, essendo esploso il mondo di ieri in mille pezzi». Un libro matto e disperatissimo, profondamente autentico. Scegliendo il procedimento analogico e lo stile metaforico, senza mai cedere

all'autobiografia o alla confessione, Tronti richiama e contempla tragicamente i grandi temi della storia e dell'uomo: il Moderno occupato dal capitalismo e la concezione borghese della vita, la Rivoluzione d'ottobre e l'errore del socialismo subito, il crollo del comunismo e la fine della storia; la memoria, le classi, il feticcio della merce, la critica della democrazia, l'autonomia della politica. Nelle riflessioni su libertà, destino e profezia risuonano le parole di Marx, Tocqueville, Smith; Montaigne, Hegel, Nietzsche; Musil, Kafka, Benjamin. Ma anche san Paolo, i vangeli, la Bhagavadgītā : essere dentro il proprio tempo senza appartenere al proprio tempo è possibile solo riscoprendo la dimensione spirituale del vivere, nella convinzione che contrapporre due orizzonti grandemente umani come cristianesimo e comunismo è stata una sciagura per la modernità. *Dello spirito libero* è un esercizio ascetico di pensiero complesso - come deve esserlo il pensiero che sfida se stesso - mai

artificiosamente difficile, mai falso. Tronti è un autore che si mette in gioco fino in fondo. E al suo lettore non può chiedere di meno.

The Periodic Table - Primo Levi 1996-10-01
The Periodic Table is largely a memoir of the years before and after Primo Levi's transportation from his native Italy to Auschwitz as an anti-Facist partisan and a Jew. It recounts, in clear, precise, unflinching beautiful prose, the story of the Piedmontese Jewish community from which Levi came, of his years as a student and

young chemist at the inception of the Second World War, and of his investigations into the nature of the material world. As such, it provides crucial links and backgrounds, both personal and intellectual, in the tremendous project of remembrance that is Levi's gift to posterity. But far from being a prologue to his experience of the Holocaust, Levi's masterpiece represents his most impassioned response to the events that engulfed him. The Periodic Table celebrates the pleasures of love and friendship and the search for meaning, and stands as a monument to those things in us that are capable of resisting and enduring in the face of tyranny.

The Book of Disquiet - Fernando Pessoa

2010-12-09

Sitting at his desk, Bernardo Soares imagined himself free forever of Rua dos Douradores, of

his boss Vasques, of Moreira the book-keeper, of all the other employees, the errand boy, the post boy, even the cat. But if he left them all tomorrow and discarded the suit of clothes he wears, what else would he do? Because he would have to do something. And what suit would he wear? Because he would have to wear another suit. A self-deprecating reflection on the sheer distance between the loftiness of his feelings and the humdrum reality of his life, *The Book of Disquiet* is a classic of existentialist literature.
