Start with Why - Simon Sinek 2011-12-27

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

Rohi Mataluna - Mohammad Nawaz Tair 2009-03-01

"For a Pashtun, the world is a dangerous place. . . . To negotiate such a world, a man or woman needs wise words. . . . Pashto proverbs provide critical lessons about faith and honor, human nature and relationships, friends and enemies, power and revenge, in short, how to live in a society that is at once fragrant with friendship, fraught with ambiguities, and seared by treachery." You are invited to look into the world of the Pashtun through the pages of Rohi Mataluna: Pashto Proverbs. This selection of 1,350 Pashto proverbs (mataluna) from the mountainous (rohi) Afghan borderlands, with English translation and cultural annotations, aims to preserve some of the original flavor of an oral literature that reflects a traditional culture now facing turmoil and inevitable change. This second edition has been completely updated, revised, and expanded with new material, while taking care to preserve and honor the original work of the first edition. It includes: -- Cultural background and context of the Afghan frontier -- Explanations of key words and concepts -- Examples of the use of texts in social situations -- Observations on the form and structure of proverbs -- Parallel and variant texts -- Background stories -- Index of key words, persons, and places This book will appeal to readers and students of Pashto and English, to scholars and tourists, to anthropologists and folklorists, and to all those interested in learning more about the Pashtun people of the Afghan frontier.

NICOMACHEAN ETHICS - Aristotle 2017-04-20

◆EVERY art and every inquiry, and similarly every action and pursuit, is thought to aim at some good; and for this reason the good has rightly been declared to be that at which all things aim. But a certain difference is found among ends; some are activities, others are products apart from the activities that produce them. Where there are ends apart from the actions, it is the nature of the products to be better than the activities. Now, as there are many actions, arts, and sciences, their ends also are many; the end of the medical art is health, that of shipbuilding a vessel, that of strategy victory, that of economics wealth. But where such arts fall under a single capacity- as bridle-making and the other arts concerned with the equipment of horses fall under the art of riding, and this and every military action under strategy, in the same way other arts fall under yet others- in all of these the ends of the master arts are to be preferred to all the subordinate ends; for it is for the sake of the former that the latter are pursued. It makes no difference whether the activities themselves are the ends of the actions, or something else apart from the activities, as in the case of the sciences just mentioned.◆

Oral Literature of Iranian Languages: Kurdish, Pashto, Balochi, Ossetic, Persian and Tajik: Companion Volume II - Ulrich Marzolph 2010-05-19

A new History of Persian Literature in 18 Volumes. Persian literature is the jewel in the crown of Persian culture. It has profoundly influenced the literatures of Ottoman Turkey, Muslim India and Turkic Central Asia and been a source of inspiration for Goethe, Emerson, Matthew Arnold and Jorge Luis Borges among others. Yet Persian literature has never received the attention it truly deserves. A History of Persian Literature answers this need and offers a new, comprehensive and detailed history of its subject. This 18-volume, authoritative survey reflects the stature and significance of Persian literature as the single most important accomplishment of the Iranian experience. It includes extensive, revealing examples with contributions by prominent scholars who bring a fresh critical approach to bear on this important topic. This companion volume deals with two of the most under-researched areas of study in the Modern Iranian field: the Persian oral and popular literature of Iran, Tajikistan and Persian-speaking Afghanistan on the one hand; and the written and oral literatures of the Kurds, Pashtuns, Baloch and Ossetians on the other.
