Gemmotherapy, and the Scientific Foundations of a Modern Meristemotherapy -

Marcello Nicoletti 2020-08-27

This book reports on the current state of meristemotherapy (also called gemmotherapy or budtherapy) and its possible future directions. Meristemotherapy focuses on the growth of plants, and is based on

analytical studies, pre-clinic research, clinical trials and activity tests. The book investigates the determination of preparation methods, collateral effects, posology, and administration methods.

The Farmer and the Obstetrician - Michel Odent
2002

In his new book Michel Odent shows how farming and childbirth have been industrialized side by side during the 20th century - with dramatic and disturbing consequences. The similarities are striking. In both cases innovations have been presented as the long awaited solution to an old problem: the advent of powerful synthetic insecticides has, overnight, dramatically reduced the costs and increased agricultural productivity; the advent of the modern safe technique of caesarean section has offered serious new reasons to create gigantic obstetrical departments. In both spheres a small number of skeptics voiced doubts and fears concerning the negative long-

term consequences of the widespread use of novel, little tested practices; although these repeated warnings initially went unheeded, they have motivated the development of "alternative" approaches and movements. At the turn of the new century the history of industrialized farming has suddenly speeded up. A collective global awareness has been sparked by a series of disasters, particularly "mad cow" and foot and mouth diseases. Industrialized childbirth has not yet reached the same phase of its history, but the parallels between these two industries suggest that there is more to link the farmer and the obstetrician than we had all realized..

a lifetime to change lives forever. In the rain forests of Peru, an ancient manuscript has been discovered. Within its pages are 9 key insights into life itself -- insights each human being is predicted to grasp sequentially; one insight, then another, as we move toward a completely spiritual culture on Earth. Drawing on ancient wisdom, it tells you how to make connections among the events happening in your life right now and lets you see what is going to happen to you in the years to come. The story it tells is a gripping one of adventure and discovery, but it is also a guidebook that has the power to crystallize your perceptions of why you are where you are in life and to direct your steps with a new energy and optimism as you head into tomorrow. Praise for *The Celestine Prophecy* "A gripping adventure story filled with intrigue, suspense, and spiritual revelations." - Commonwealth Journal "A spiritual classic...a book to read and reread, to cherish, and to give to friends." - Joan

Borysenko, PhD, author of *Fire in the Soul* "In his inimitable style of great storytelling, Redfield opens us up to a world of insight, inspiration, synchronicity, and power." - Deepak Chopra

History - Elsa Morante
2015-02-24

History was written nearly thirty years after Elsa Morante and Alberto Moravia spent a year in hiding among remote farming villages in the mountains south of Rome. There she witnessed the full impact of the war and first formed the ambition to write an account of what history - the great political events driven by men of power, wealth, and ambition - does when it reaches the realm of ordinary people struggling for life and bread. The central character in this powerful and unforgiving novel is Ida Mancuso, a schoolteacher whose husband has died and whose feckless teenage son treats the war as his playground. A German soldier on his way to North Africa rapes her, falls in love with her, and leaves her

pregnant with a boy whose survival becomes Ida's passion. Around these two other characters come and go, each caught up by the war which is like a river in flood. We catch glimpses of bombing raids, street crimes, a cattle car from which human cries emerge, an Italian soldier succumbing to frostbite on the Russian front, the dumb endurance of peasants who have lived their whole lives with nothing and now must get by with less than nothing.

The Handbook of Bach Flower Remedies for

Animals - Enric Homedes Bea 2011-08-15

Bach Flower Remedies are dilutions of flower material developed by Edward Bach, an English physician and homeopath, in the 1930s. This practical handbook explains how Bach Flower Remedies can be highly effective for treating both behavioural and physical complaints in animals. Based on strong scientific

research and detailed case studies, this book is a comprehensive resource that helps find solutions to common animal health and behaviour issues. The book lists each of the 38 flower remedies, explaining their properties and applications for both animals and humans. It then looks at specific animal ailments including conjunctivitis, allergies and phobias, and demonstrates how these problems can be successfully addressed using flower remedies. Practical advice about how to prepare and administer the remedies is included, as well as guidelines for using flower remedies in animal shelters. This book will be a valuable addition to the bookshelves of all pet owners, animal shelter workers, vets, ethologists and anyone with an interest in complementary and alternative medicines.

Memories of Class - Zygmunt Bauman 2009-10-28

A discussion of the mechanism

of class formation and institutionalisation of class conflict. It traces the formation of a class society back to the patterns of 'surveillance power' and control, and shows how these patterns preceded and made possible the industrial system.

The Yellow Emperor's Classic of Internal Medicine -

2015-12-15

The Yellow Emperor's Classic of Internal Medicine has become a landmark in the history of Chinese civilization. Written in the form of a dialogue in which the emperor seeks information from his minister Ch'I-Po on questions of health and the art of healing, it is the oldest known document in Chinese medicine. Ilza Veith's extensive introduction and monumental translation, first published in 1949, make available the historical and philosophical foundations of traditional practices that have seen a dynamic revival in China and throughout the West. A new foreword by Linda L. Barnes places the translation in its

historic contexts, underlining its significance to the Western world's understanding of Chinese medical practice.

Evidence-based Otitis Media -

Richard M. Rosenfeld 2003

Evidence-Based Otitis Media offers one-stop shopping for the best current evidence to guide management decisions at the individual, organizational, and societal levels. This text details the importance of evidence-based data in interpreting the ever-enlarging body of literature on otitis media. The editors have assembled an impressive group of experts on all aspects of otitis media and addressed comprehensively many issues related to methodology, clinical management, and consequences of this disease. The eight chapters comprising the methodology section provide the necessary background and detail to allow physicians and other health professionals to understand and appreciate the value of evidence-based medicine. Updates include: the incorporation of new original

research, systemic reviews, and evidence reports to existing chapters. New chapter topics include: evidence-based medicine, professional evidence reports, molecular and translational research, complementary and alternative medicine, bacteriologic efficacy of antimicrobials, vaccine prevention, international management perspectives, meta-analysis of speech and language sequelae, suppurative complications, host susceptibility to sequelae, and judicious use of systemic and topical antimicrobials.

FEATURES: *Maturation of evidence-based medicine as a foundation for clinical care is reflected throughout the text. *Extensive evidence tables summarize study characteristics and quantitative outcomes for clinically relevant endpoints *Internationally distinguished contributors selected based on both their clinical expertise and their ability to write for an evidence-based text

Sadhana - Anthony De Mello
1984-09-01

Christian Exercises in Eastern Form Truly a one-of-a-kind, how-to-do-it book, this small volume responds to a very real hunger for self-awareness and holistic living. It consists of a series of spiritual exercises for entering the contemplative state -- blending psychology, spiritual therapy, and practices from both Eastern and Western traditions. Anthony de Mello offers here an unparalleled approach to inner peace that brings the whole person to prayer -- body and soul, heart and mind, memory and imagination. In forty-seven exercises that teach things

such as awareness of physical sensations, stillness, healing of hurtful memories, and consciousness of self and world, de Mello succeeds in helping all who have ever experienced prayer as difficult, dull, or frustrating. The essential key, he notes, is to journey beyond mere thought-forms and discover satisfying new depths in prayer from the heart. This allows for a greater sense of awareness amid silence, and disposes the one who prays to untold riches, spiritual fulfillment, and ultimately, a mystical experience of God-centeredness. Drawing on Scripture, as well as insights from Eastern and Western spiritual masters, the author has a unique appeal that transcends time, culture, and religious background. For many years a bestseller in the English language, Sadhana has now been translated into more than two dozen foreign languages. Readers the world over have eagerly received this sincere spiritual leader, who has led many toward the

wealth of insight and spirit that dwells within them.

In and Out the Garbage Pail

- Frederick S. Perls 1992

The Swallows of Monte Cassino
- Helena Janeczek 2013-10
This novel hinges on the battle of Monte Cassino, Italy, in World War II, covering the international contingents and their contribution to that victory. The four month long battle at Monte Cassino in southern Italy was one of the bloodiest in World War II. In this highly original novel, Janeczek retells that 1944 battle from the point of view of the Maori, Gurkha, Polish, North African, small-town American and other Allied foot soldiers who fought and died under German fire near that 6th century Benedictine abbey. Twined through the battle is another story, a memory of the drowned and the saved in Janeczek's own family in wartime Eastern Europe, where Jews who did not go to Nazi death camps went to Soviet gulag camps, and sometimes survived, and even went on to fight at Monte Cassino. A powerful reflection on all the ways that rights can be taken from us. "Helena Janeczek's novel is this: a

tattoo etched on the skin, and not painlessly. A vast design that brings together threads from all the various lives that converged in that legendary battle. The beauty of her tale lies in its structure, the way opposites converge: the chaos of battle and the silence of the defeated, ordinariness and the heroism of the powerless, carefully guarded memory and impetuous youth, the past perpetually intertwined with the present." Biography of a Yogi - Anya P. Foxen 2017-07-03

With over four million copies in print, Paramahansa

Yogananda's autobiography has served as a gateway into yoga and alternative spirituality for

North American practitioners since 1946. Balancing

traditional yoga, metaphysical spirituality, and a flair for the

stage, Yogananda inspired countless people to practice Yogoda, his own brand of yoga.

His method combined the spiritual and superhuman

aspirations of Indian traditions with the health-oriented sensibilities of Western

practice. Because the Yogoda program does not rely on

recognizable postures and poses, it has remained under

the radar of yoga scholarship. Biography of a Yogi examines

Yogananda's career and Yogoda in the wider context of

the development of yoga in the

twentieth century. Focusing on Yogis during this early period of transnational popularization,

Foxen highlights the continuities in the concept of the Yogi as superhuman and

traces the transformation of yoga from a holistic and spiritual practice to its present-day postural practice.

The Neurogenesis Diet and Lifestyle - Brant Cortright, Ph.d. 2015-04-06

"Only recently has it been discovered that the brain produces new brain cells throughout our entire lives, a process called neurogenesis. The rate at which we form new brain cells has a profound influence upon every aspect of our life. When the rate of neurogenesis is low, we see cognitive deficits and memory problems, anxiety and stress, depression, and lowered immunity. Life is difficult. With high rates of neurogenesis we see the opposite: enhanced cognitive abilities, rapid learning, emotional resilience,

protection from anxiety, stress and depression, heightened immunity and robust health. We flourish. Life is wonderful. Given the neurotoxic norms of society, it's almost universally true that your brain is working far below its capacity. It is deteriorating much faster than it needs to. What good is living longer if your brain can't go the distance? Recent discoveries in the emerging field of neurogenesis reveal the secrets to radically improve your brain's health. You can operate at a higher level than you ever dreamed possible--at any age!" --

Facial Reflexology - Dien Chan Zone - Beatrice Moricoli and Vittorio Bergagnini 2016-11-24
"The key to health is on your face and in your hands" This book presents a self-care method unique in its genre, which offers extraordinary, sometimes amazing and often immediate results for all kinds of disharmony in the body. The method began life in 1980s Vietnam - like many important discoveries, a result of war and necessity - independent of

resource availability. It was developed by a group of acupuncturists to put healing in the hands of the masses by replacing needles with equally effective blunt rounded tools. It is the most recent reflexology on the planet and has nothing to do with other oriental techniques related to the face. Today 'Dien Chan' is a popular and accepted method of healthcare in its home country and part of their official system. However, it is the work of two self declared Italian 'free-sprits', over the past twenty years, which has suitably translated the technique and advanced it to meet the needs of modern Westerners. No longer a painful stimulation of pre-defined points; it has evolved to a relaxing massage of zones and individual, personalised points. 'Dien Chan Zone' incorporates simplified principles and teachings of Traditional Chinese Medicine, protocols for allergies and intolerances, a unique Facial-Cranial reflexology and a beauty treatment to tone

muscle and regulate skin function. It is the authors' overriding intention to facilitate learning and to make this method accessible to everyone. In this book they share full instructions for self-treatment which they know present a great frontier of freedom, and the medicine of the future. Contains 95 full colour maps Beatrice Moricoli, founder of S.I.R.F.A./A.I.R.F.I. in Milan, is the first female teacher of Dien Chan (Zone) in Italy, but for many years has practiced also as a therapist and teacher of Reiki, Shiatsu, Tui Na, Chinese Medicine and 'The Blowing Technique'. Vittorio Bergagnini, founder of S.I.R.F.A./A.I.R.F.I. in Milan, is a teacher of Dien Chan Zone as well as Tai Chi Chuan, Reiki, Foot Reflexology and Wung Chun.

prearranged marriage to the son of her father's business associate would secure her family's status in their traditional Japanese community, but Naoko has fallen for another man—an American sailor, a *gaijin*—and to marry him would bring great shame upon her entire family. When it's learned Naoko carries the sailor's child, she's cast out in disgrace and forced to make unimaginable choices with consequences that will ripple across generations. America, present day. Tori Kovac, caring for her dying father, finds a letter containing a shocking revelation—one that calls into question everything she understood about him, her family and herself. Setting out to learn the truth behind the letter, Tori's journey leads her halfway around the world to a remote seaside village in Japan, where she must confront the demons of the past to pave a way for redemption. In breathtaking prose and inspired by true stories from a devastating and little-known era in Japanese and American

history, *The Woman in the White Kimono* illuminates a searing portrait of one woman torn between her culture and her heart, and another woman on a journey to discover the true meaning of home.

Commonalities in Substance Abuse and Habitual Behavior - Peter K. Levison 1983

Abstract: Nine contributed papers comprise a review and assessment of the scientific basis for a commonalities approach to research on substance abuse and habitual behavior. The papers are grouped under 3 principal types of commonalities: sociocultural (sociologic perspective of drug abuse; a cultural approach to troublesome habitual behaviors); psychological (environmental control; a learning theory approach; the addictive personality); and biological (opiate drug receptors; endorphins and addictiveness; brain-behavior associations with endogenous opioids; and genetic considerations). Abused substances (e.g., ethanol) and

maladaptive behaviors are
discussed from the
perspectives of the different

disciplines (e.g., psychology,
toxicology). (wz).
