The Explosion Chronicles -

Yan Lianke 2016-10-04

Man Booker International finalist Yan Lianke has been lauded for his imaginative satire and insightful cultural critique as "one of China's greatest living authors" (Guardian). His internationally bestselling new novel, *The Explosion Chronicles*, follows the excessive expansion of a rural community from small village to megalopolis. With the Yi River on one side and the Balou Mountains on the other, the village of Explosion was founded more than a millennium ago by refugees fleeing a seismic volcanic eruption. But in the post-Mao

era the name takes on a new significance as the community grows explosively from a small village to a vast metropolis. Behind this rapid expansion are members of the community's three major families, including the four Kong brothers; Zhu Ying, the daughter of the former village chief; and Cheng Qing, who starts out as a secretary and goes on to become a powerful political and business figure. Linked together by a complex web of loyalty, betrayal, desire, and ambition, these figures are the driving force behind their hometown's transformation into an urban superpower. Brimming with absurdity, intelligence, and wit, *The Explosion Chronicles* considers the high stakes of passion and power, the consequences of corruption and greed, the polarizing dynamics of love and hate between families, as well as humankind's resourcefulness through the vicissitudes of life.

Fashion in Multiple Chinas -

Wessie Ling 2018-04-20

Much has been written about

the transformation of China from being a clothing-manufacturing site to a fast-rate fashion consuming society. Less, however, has been written on the process of making Chinese fashion. The expert contributors to *Fashion in Multiple Chinas* explore how the many Chinese fashions operate across the widespread, fragmented and diffused, Chinese diaspora. They confront the idea of Chinese nationalism as 'one nation', as well as of China as a single reality, in revealing the realities of Chinese fashion as diverse and comprising multiple practices. They also demonstrate how the making of Chinese fashion is composed of numerous layers, often involving a web of global entanglements between manufacturing and circulation, retailing and branding. They cover the mechanics of the PRC fashion industry, the creative economy of Chinese fashion, its retail and branding, and the cultural identity of Chinese fashion from the diasporas comprising the

transglobal landscape of fashion production.

A Companion to Modern Chinese Literature - Yingjin Zhang 2015-08-13

This wide-ranging Companion provides a vital overview of modern Chinese literature in different geopolitical areas, from the 1840s to now. It reviews major accomplishments of Chinese literary scholarship published in Chinese and English and brings attention to previously neglected, important areas. Offers the most thorough and concise coverage of modern Chinese literature to date, drawing attention to previously neglected areas such as late Qing, Sinophone, and ethnic minority literature. Several chapters explore literature in relation to Sinophone geopolitics, regional culture, urban culture, visual culture, print media, and new media. The introduction and two chapters furnish overviews of the institutional development of modern Chinese literature in Chinese and English scholarship since the mid-

twentieth century

STARDRAGONS. - Paolo Barbieri 2019

Acupoint Pocket Reference - Bob Flaws 1997-11

Bronxwood - Coe Booth 2011-09-01

The acclaimed author of TYRELL and KENDRA returns to PUSH to continue Tyrell's astonishing story. Tyrell's father is just out of jail, and Tyrell doesn't know how to deal with that. It's bad enough that his brother Troy is in foster care and that his mother is no help whatsoever. Now there's another thing up in his face, just when he's trying to settle

down. Tyrell's father has plans of his own, and doesn't seem to care whether or not Tyrell wants to go along with them. Tyrell can see the crash that's coming -- with his dad, with the rest of his family, with the girls he's seeing -- but he's not sure he can stop it. Or if he even wants to.

Fan Chengda (1126-1193) was a high-ranking Chinese

government official in Guangxi, an experienced traveler, a keen observer, and a gifted writer. His observations on a wide range of subjects are always interesting and revealing, and constitute an important contribution to the literature on Song dynasty China's frontier peoples. Originally written in direct, unadorned, and allusion-free classical Chinese prose, the complete and annotated English translation of *Treatises of the Supervisor and Guardian of the Cinnamon Sea* (Guihai yuheng zhi) captures its charm and significance.

Confucian Role Ethics -

Roger T Ames 2011-08-03

In this landmark work, noted comparative philosopher Roger T. Ames interprets how the classics of the Confucian canon portray the authentic, ethical human being. He argues that many distinguished commentators on Confucian ethics have explained the fundamental ideas and terms of this distinctively Chinese philosophy by superimposing Western concepts and

categories, effectively collapsing this rich tradition into a subcategory of "virtue ethics." Beginning by addressing the problem of responsible cultural comparisons, Ames then formulates the interpretive context necessary to locate the texts within their own cultural ambiance. Exploring the relational notion of "person" that grounds Confucian philosophy, he pursues a nuanced understanding of the cluster of terms through which Confucian role ethics is expressed. Drawing on Western and Chinese sources, Ames provides a convincing argument that the only way to understand the Confucian vision of the consummate life is to take the tradition on its own terms.

The Capability Approach to

Labour Law - Brian Langille

2019-04-04

Forty years ago Amartya Sen introduced to the world a novel approach to the idea of equality: the notion of 'basic capability' as 'a morally relevant dimension' and the

claim that we should focus upon equality of basic capabilities ('a person being able to do certain basic things'). These ideas, as developed by Sen and Martha C. Nussbaum, have launched an academic armada now proceeding under the flag of the 'capability approach' (CA). While that flag has ventured far and wide and engaged many areas of inquiry, this volume of essays is the first to explore how CA might shed light upon labour law. The capabilities approach can illuminate our understanding of labour law across three dimensions. Part I looks at the nature of the basic relationship between CA and labour law-do they share common ground or disagree about what is important? Can the CA provide a normative 'foundation' for labour law? Part II goes further by examining the relationship of the CA and other well-established perspectives on labour law, including economics, history, critical theory, restorative justice, and human rights. Part III examines

the possible relevance of the CA to a range of specific labour law issues, such as freedom of association, age discrimination in the workplace, trade, employment policy, and sweatshop goods.

Chinese Acupuncture -

Georges Soulié de Morant 1994
Soulié de Morant's masterpiece is the most detailed study of acupuncture available in a Western language. It was nominated for a Nobel prize and provided the foundation for French acupuncture. This text is divided into 5 parts: the energetics of acupuncture, the application of the energetics, physiology, meridians and points, and treatment. This book is a unique historical document, but more than this, it is the most practical of texts and has already served a generation of clinicians well.

Conservation in the Age of Consensus - John Pendlebury
2008-09-17

This new text on the subject of conservation in the built environment provides a unique holistic view on the understanding of the practice of conservation connecting it with wider societal and political forces. UK practice is used as a means, along with international examples, for bringing together a real understanding of practice with a social science analysis of the issues. The author introduces ideas about the meanings and values attached to historic environments and how that translates into public policies of conservation.

Leadership for a Better World - NCLP (National Clearinghouse for Leadership Programs)
2016-11-14

The essential guide to the theory and application of the Social Change Model

Leadership for a Better World provides an approachable introduction to the Social Change Model of Leadership Development (SCM), giving students a real-world context through which to explore the seven C's of leadership for social change as well as a approaches to socially responsible leadership. From individual, group, and community values through the mechanisms of societal change itself, this book provides fundamental coverage of this increasingly vital topic. Action items, reflection, and discussion questions throughout encourage students to think about how these concepts apply in their own lives. The Facilitator's Guide includes a wealth of activities, assignments, discussions, and supplementary resources to enrich the learning experience whether in class or in the co-curriculum. This new second edition includes student self-assessment rubrics for each element of the model and new discussion on the critical roles of leadership self-efficacy,

social perspective, and social justice perspectives. Content is enriched with research on how this approach to leadership is developed, and two new chapters situate the model in a broader understanding of leadership and in applications of the model. The Social Change Model is the most widely-used leadership model for college students, and has shaped college leadership curricula at schools throughout the U.S. and other countries including a translation in Chinese and Japanese. This book provides a comprehensive exploration of the model, with a practical, relevant approach to real-world issues. Explore the many facets of social change and leadership Navigate group dynamics surrounding controversy, collaboration, and purpose Discover the meaning of citizenship and your commitment to the greater good Become an agent of change through one of the many routes to a common goal The SCM is backed by 15 years of research, and continues to

be informed by ongoing investigation into the interventions and environments that create positive leadership development outcomes.

Leadership for a Better World provides a thorough, well-rounded tour of the Social Change Model, with guidance on application to real-world issues. Please note that The Social Change Model: Facilitating Leadership Development (978-1-119-24243-7) is intended to be used as a Facilitator's Guide to Leadership for a Better World, 2nd Edition in seminars, workshops, and college classrooms. You'll find that, while each book can be used on its own, the content in both is also designed for use together. A link to the home page of The Social Change Model can be found below under Related Titles.

Ta Hsüeh and Chung Yung - Andrew H. Plaks 2003-12-04
Ta Hsüeh (Daxue) and Chung Yung (Zhongyong) are two of the central texts of early Chinese thought, encapsulating

the Confucian philosophy of the Way of moral cultivation and spiritual attainment.

Traditionally held to be the work of two of Confucius's closest disciples, the books were compiled in their present form late in the second or first century bce and have occupied a central position in educational, political, and cultural life throughout East Asia for almost a thousand years. The texts focus on the connection between internal self-cultivation and the external realization of one's moral core in the fulfillment of the practical aims of Confucian life: the observance of ritual, the proper conduct of personal relationships, and the grand enterprise of maintaining order in the state and the world.

Includes introduction, chronological table, suggestions for further reading, notes, and appendices on basic concepts and method of argument These two texts complete the set of the four Confucian classics in Penguin Classics

Medicine Upside Down -
Giorgio Mambretti 2013-03-01
Dr Hamer is a highly controversial figure: his patients love him, yet other doctors want to block him, and meanwhile he gathers acknowledgements, but at the same time he is put on trial as well. Many believe that most of the opposition against him is because his theories -- and above all his long list of patients who have been healed -- go completely against established medicine... How can it be that diseases like cancer can simply be an

attempt of the brain to fix (which means to heal) some emotional traumas? And that identifying such traumas and solving them can equate to healing the body? This is the only book available in Italy which is really up-to-date and comprehensive, very clear and supported by some brilliant cartoons: all these qualities have turned it into a real best seller. At long last a book on Dr Hamers new Germanic Medicine that is both really easy-to-read and comprehensive. Approach these controversial, yet fascinating theories with objectivity and open-mindedness.

**Toward Unity among
Environmentalists** - Bryan G.
Norton 1994-09-01

Today, six out of ten Americans describe themselves as "active" environmentalists or as "sympathetic" to the movement's concerns. The movement, in turn, reflects this millions-strong support in its diversity, encompassing a wide spectrum of causes, groups, and sometimes conflicting

special interests. For far-sighted activists and policy makers, the question is how this diversity affects the ability to achieve key goals in the battle against pollution, erosion, and out-of-control growth. This insightful book offers an overview of the movement -- its past as well as its present -- and issues the most persuasive call yet for a unified approach to solving environmental problems. Focusing on examples from resource use, pollution control, protection of species and habitats, and land use, the author shows how the dynamics of diversity have actually hindered environmentalists in the past, but also how a convergence of these interests around forward-looking policies can be effected, despite variance in value systems espoused. The book is thus not only an assessment of today's movement, but a blueprint for action that can help pull together many different concerns under a common banner. Anyone interested in

environmental issues and active approaches to their solution will find the author's observations both astute and creative.

Environmental Justice and the New Pluralism - Associate Professor Department of Political Science David Schlosberg 1999

In the first ever theoretical treatment of the environmental justice movement, David Schlosberg demonstrates the development of a new form of critical pluralism, in both theory and practice. His timely and sophisticated study presents a challenge to both conventional pluralist thought and the practices of the major groups in the US environmental movement.

[A Theory of Ecological Justice](#) - Brian Baxter 2004-09-23

In *A Theory of Ecological Justice*, Baxter argues for ecological justice - that is, for treating species besides homo sapiens as having a claim in justice to a share of the Earth's resources. It explores the nature of justice claims as applied to organisms of various

degrees of complexity and describes the institutional arrangements necessary to integrate the claims of ecological justice into human decision-making.

*Lexicon of Reconstructed
Pronunciation* - Edwin G.

Pulleyblank 2011-11-01
Known for his pioneering work in Chinese historical phonetics, Edwin Pulleyblank has compiled this Lexicon to present in convenient dictionary form the result of his researches on the phonology of Middle Chinese and its evolution to Mandarin. The Lexicon complements Pulleyblank's earlier book, Middle Chinese, by providing reconstructed pronunciation

for approximately 8,000 Chinese characters at three historical stages. Early Middle Chinese is the language of the Qieyun rhyme dictionary of AD 601, which codified the standard literary language of both North and South China the preceding period of division. Pulleyblank's reconstruction is a thorough reworking of that of Bernhard Karlgren, completed in the twenties, and in some respects differs radically from it. Late Middle Chinese is the standard language of the High Tang Dynasty, based on the dialect of the capital, Chang'an. It has not been reconstructed previously as a separate stage but is of special importance, since it is the ancestor of most modern dialects. Early Mandarin represents the speech of the Yuan capital, Dadu (present Beijing), around the year 1300, for which Pulleyblank's reconstruction differs considerably from that of Hugh M. Stimson. The sources and methods used in these reconstructions were fully discussed in Middle

Chinese, but recent developments in phonological theory have led to some modifications in detail. The entries are arranged alphabetically according to the Pinyin system with an index, by the traditional Kangxi radical and stroke numbers. The Morohashi number is also given for each character, enabling easy reference to this important Chinese thesaurus. Another useful feature of the Lexicon is the inclusion of the numbers in Karlgren's *Grammata Serica* for

characters that are included in that work. Concise English equivalents for the Chinese words are also provided. Reconstructed forms are given in the International Phonetic Alphabet. Though this requires a number of phonetic signs and diacritical marks, these are carefully explained in the introduction. Every effort has been made to provide a useful tool for students of Chinese literature and China's relations with foreign countries, as well as for specialists in Chinese linguistics.
