Eta Cohen's Violin Method - Preliminary Book - Eta Cohen 2003-12

(Music Sales America). An exciting and fun addition for beginner violinists to the highly respected Eta Cohen Violin Method. This book avoids difficulties of reading even at the earliest stage. Rhythm exercises are introduced before

any pitch notation, preparing young violinists for the attractive tunes which follow. All the melodies are kept within the compass of the scale of D major. As well as being easy to read, sing and play, this ensures a natural height of the bowing arm, helping achieve a good sound. Words are included to help learning and so that even the simplest tunes are fun. Duet parts for the violin or piano are included so that the beginners learn the importance of ensemble playing and keeping time right from the start.

Improve your sight-reading! - Paul Harris 1995

Now more than ever, the ability to sight-read fluently is an essential part of the training of musicians of any instrument. This workbook is designed to help overcome the nerves that can cause sight-reading problems, by ensuring sound technique and approach and by providing confidence boosting tips. Step-by-step it helps the student to build up a complete picture of each piece, first through rhythmic and melodic exercises related to specific problems, then by the study of a prepared piece with associated questions for the student to answer. Finally, it takes students through the real, unprepared sight-reading test itself.

A New tune a day for alto saxophone - Ned Bennett 2006

Now, for the first time, C. Paul Herfurth's original books have been completely rewritten with new music and the latest in instrument technique for a new generation of musicians. A New Tune A Day books have the same logical, gentle pace, and keen attention to detail, but with a host of innovations.

FastTrack Violin Method - Patrick Clark
2015-12-01

(Fast Track Music Instruction). FastTrack is (you guessed it!) a fast way to learn to play violin! Skeptical of method books? (Yeah, we think they're kind of boring, too.) That's why we've

tried to make FastTrack different from the rest: user-friendly, plenty of cool songs, and a lot more fun. In addition to teaching you what you need to know about the violin, we've included lots of stuff you want to know the parts of the violin, bowings, fingerings, articulation, and much more. So, open the book, crack your knuckles, get your violin out of the case, and let's learn to play it!

But Is It Art? - Cynthia Freeland 2002-02-07
In today's art world many strange, even shocking, things qualify as art. In this book, Cynthia Freeland explains why innovation and controversy are valued in the arts, weaving together philosophy and art theory with many fascinating examples. She discusses blood, beauty, culture, money, museums, sex, and politics, clarifying contemporary and historical accounts of the nature, function, and interpretation of the arts. Freeland also propels us into the future by surveying cutting-edge web sites, along with the latest research on the brain's role in perceiving art. This clear, provocative book engages with the big debates surrounding our responses to art and is an invaluable introduction to anyone interested in

thinking about art.

Learning Statistics with R - Daniel Navarro
2013-01-13

"Learning Statistics with R" covers the contents of an introductory statistics class, as typically taught to undergraduate psychology students, focusing on the use of the R statistical software and adopting a light, conversational style throughout. The book discusses how to get started in R, and gives an introduction to data manipulation and writing scripts. From a statistical perspective, the book discusses descriptive statistics and graphing first, followed by chapters on probability theory, sampling and estimation, and null hypothesis testing. After introducing the theory, the book covers the analysis of contingency tables, t-tests, ANOVAs and regression. Bayesian statistics are covered at the end of the book.
