Leading Without Authority - Keith Ferrazzi 2020-05-26

The #1 New York Times bestselling author of *Never Eat Alone* redefines collaboration with a radical new workplace operating system in which leadership no longer demands an office, an official title, or even a physical workplace. "An actionable methodology for any team to thrive during the decade of exponential change ahead."—Peter H. Diamandis, founder of XPRIZE and Singularity University, bestselling co-author of *Abundance*, *Bold*, and *The Future Is Faster Than You Think* In times of stress, we have a choice: we can retreat further into our isolated silos, or we can commit to "going higher together." When external pressures are mounting, and employees are working from far-flung locations across the globe, says bestselling author Keith Ferrazzi, we can no longer afford to waste time navigating the complex chains of command or bureaucratic bottlenecks present in most companies. But when we choose the bold new methodology of co-elevation as our operating model, we unlock the potential to boost productivity, deepen commitment and engagement, and create a level of trust, mutual accountability, and purpose that exceeds what could have been accomplished under the status quo. And you don't need any formal authority to do it. You simply have to marshal a commitment to a shared mission and care about the success and development of others as much as you care about your own. Regardless of your title, position, or where or how you work, the ability to lead without authority is an essential workplace competency. Here, Ferrazzi draws on over a decade of research and over thirty years helping CEOs and senior leaders drive innovation and build high-performing teams to show how we can all turn our colleagues and partners into teammates and truly reboot the way we work together.

People Powered - Jono Bacon 2019-11-12

What if you discovered a blueprint that could grow your brand's reputation and loyalty, dramatically reduce customer service issues, produce content and technology, and cement a powerful, lasting relationship between you and your customers? Communities have been a popular topic since the rise of the Internet and social media, but few companies have consistently harnessed their power, driven tangible value, and effectively measured their return on investment (ROI) like Salesforce.com, Star Citizen via Kickstarter, and Red Hat. Companies such as PayPal, Facebook, Bosch, Microsoft, CapitalOne, and Google, have also built communities inside their organizations, which have fostered innovation, broken down silos, and helped their organizations to operate more efficiently and collaboratively. *People Powered* helps C-suite leaders, founders, marketers, customer advocates, and community leaders gain a competitive advantage by answering the following questions: What is the key value proposition of building a community? What kind of community do we need and how do we build and integrate it into our organization? How do we incentivize and encourage people to get involved, build reliable growth, and keep community members engaged? How do we develop authentic, productive relationships with community members both online and in person? How do we get departmental buy-in, hire effectively, and create consistent, reliable community engagement skills in our organization? What are the strategic and tactical pitfalls and roadblocks we need to avoid? How do we make sure that our community continues to grow with us—and more importantly, how do we make sure that we continue to grow with them? *People Powered* pulls together over 20 years of pragmatic experience into a clear, simple methodology and blueprint to not just answer these questions, but deliver results. Don't get left behind—become an industry

trailblazer and ensure your company's longevity by tapping into the most dynamic force both outside and inside your organization: the people.

Last Tango in Cyberspace - Steven Kotler 2019-05-14

It was a new skill... One that might change the world. What could a person do who could track empathy? His friends call him Lion, he is the first of his kind. Some describe it as emotional foresight, but really, he can see cultural trends before they emerge. What he didn't expect was for Big Pharma to come calling. In 2025, technology has made massive leaps forward. Not every group wants to use it for good. Artic Pharmaceuticals has a new drug and a bad idea. They call on Lion, because he is the key to getting the formula they need. But when he starts to sense their hidden agenda, will they take drastic action? Then Lion discovers a decapitated human head... Is he being hunted? Can he stop a global disaster? You'll love this edge-of-your seat cyberpunk thriller, because it will keep you turning the pages late into the night. Get it now.

West of Jesus - Steven Kotler 2008-12-01

After spending two years in bed with Lyme disease, Steven Kotler had lost everything: his health, his job, his girl, and, he was beginning to suspect, his mind. Kotler, not a religious man, suddenly found himself drawn to the sport of surfing as if it were the cornerstone of a new faith. Why, he wondered, when there was nothing left to believe in, could he begin to believe in something as unlikely as surfing? What was belief anyway? How did it work in the body, the brain, our culture, and human history? With the help of everyone from rebel surfers to rocket scientists, Kotler undertakes a three-year globetrotting quest. The results are a startling mix of big waves and bigger ideas: a surfer's journey into the biological underpinnings of belief itself.

The Science and Technology of Growing Young - Sergey Young 2021-08-24

Wall Street Journal, USA Today, and Publishers Weekly bestseller The prospect of living to 200 years old isn't science fiction anymore. A leader in the emerging field of longevity offers his perspective on what cutting-edge breakthroughs are on the horizon, as well as the practical steps we can take now to live healthily to 100 and beyond. In *The Science and Technology of Growing Young*, industry investor and insider Sergey Young demystifies the longevity landscape, cutting through the hype and showing readers what they can do now to live better for longer, and offering a look into the exciting possibilities that await us. By viewing aging as a condition that can be cured, we can dramatically revolutionize the field of longevity and make it accessible for everyone. Join Sergey as he gathers insights from world-leading health entrepreneurs, scientists, doctors, and inventors, providing a comprehensive look into the future of longevity in two horizons: • The Near Horizon of Longevity identifies the technological developments that will allow us to live to 150—some of which are already in use—from AI-based diagnostics to gene editing and organ regeneration. • The Far Horizon of Longevity offers a tour of the future of age reversal, and the exciting technologies that will allow us to live healthily to 200, from Internet of Bodies to digital avatars to AI-brain integration. In a bonus chapter, Sergey also showcases 10 longevity choices that we already know and can easily implement to live to 100, distilling the science behind diet, exercise, sleep, mental health, and our environments into attainable habits and lifestyle hacks that anyone can adopt to vastly improve their lives and workplaces. Combining practical advice with an incredible overview of the brave new world to come, *The Science and Technology of Growing Young* redefines what it means to be human and to grow young.

The Undefeated Marketing System - Phillip Stutts 2021-04-20

You hate politicians. Who doesn't in today's world? But you have more in common with politicians than you may think: you both need a proven, foolproof marketing system to succeed in today's tumultuous marketplace. The stakes have always been high, but with so much

economic disruption in the world, they're even higher now-and you can feel it. What if the key to future success lies in a simple and secret marketing approach that presidents use to get elected and startup companies use to become billion-dollar unicorns? What if you could use this approach to convert customers in half the time, eliminate your financial risk, and secure huge profits? Now you can. In *The Undefeated Marketing System*, bestselling author Phillip Stutts shows you how his groundbreaking five-step marketing formula used by winning presidents and successful companies will also grow your business. With more than twenty-five years of campaign and research experience, Phillip will reveal, for the first time ever, his system that elects presidents and builds billion-dollar companies. If you're a small business owner, entrepreneur, executive, or marketing professional determined to beat the competition in any economic environment, this is your next must-read book.

LGBTQ Social Movements - Lisa M. Stulberg 2018-01-16

In recent years, there has been substantial progress on lesbian, gay, bisexual, transgender, and queer (LGBTQ) civil rights in the United States. We are now, though, in a time of incredible political uncertainty for queer people. *LGBTQ Social Movements* provides an accessible introduction to mainstream LGBTQ movements in the US, illustrating the many forms that LGBTQ activism has taken since the mid-twentieth century. Covering a range of topics, including the Stonewall uprising and gay liberation, AIDS politics, queer activism, marriage equality fights, youth action, and bisexual and transgender justice, Lisa M. Stulberg explores how marginalized people and communities have used a wide range of political and cultural tools to demand and create change. The five key themes that guide the book are assimilationism and liberationism as complex strategies for equality, the limits and possibilities of legal change, the role of art and popular culture in social change, the interconnectedness of social movements, and the role of privilege in movement organizing. This book is an important tool for understanding current LGBTQ politics and will be essential reading for students and scholars of sexuality, LGBTQ studies, and social movements, as well as anyone new to thinking about these issues.

Juvenescence - Jim Mellon 2017-09-25

Bold - Peter H. Diamandis 2016-02-23

Bold is a radical how-to guide for using exponential technologies, moonshot thinking, and crowd-powered tools to create extraordinary wealth while also positively impacting the lives of billions. A follow-up to the authors' *Abundance* (2012).

Abundance - Peter H. Diamandis 2014-09-23

The authors document how four forces--exponential technologies, the DIY innovator, the Technophilanthropist, and the Rising Billion--are conspiring to solve our biggest problems. "Abundance" establishes hard targets for change and lays out a strategic roadmap for governments, industry and entrepreneurs, giving us plenty of reason for optimism.

Stealing Fire - Steven Kotler 2017-02-21

National Bestseller CNBC and Strategy + Business Best Business Book of the Year It's the biggest revolution you've never heard of, and it's hiding in plain sight. Over the past decade, Silicon Valley executives like Eric

Schmidt and Elon Musk, Special Operators like the Navy SEALs and the Green Berets, and maverick scientists like Sasha Shulgin and Amy Cuddy have turned everything we thought we knew about high performance upside down. Instead of grit, better habits, or 10,000 hours, these trailblazers have found a surprising short cut. They're harnessing rare and controversial states of consciousness to solve critical challenges and outperform the competition. New York Times bestselling author Steven Kotler and high performance expert Jamie Wheal spent four years investigating the leading edges of this revolution—from the home of SEAL Team Six to the Googleplex, the Burning Man festival, Richard Branson's Necker Island, Red Bull's training center, Nike's innovation team, and the United Nations' Headquarters. And what they learned was stunning: In their own ways, with differing languages, techniques, and applications, every one of these groups has been quietly seeking the same thing: the boost in information and inspiration that altered states provide. Today, this revolution is spreading to the mainstream, fueling a trillion dollar underground economy and forcing us to rethink how we can all lead richer, more productive, more satisfying lives. Driven by four accelerating forces—psychology, neurobiology, technology and pharmacology—we are gaining access to and insights about some of the most contested and misunderstood terrain in history. *Stealing Fire* is a provocative examination of what's actually possible; a guidebook for anyone who wants to radically upgrade their life.

A Small Furry Hope - Steven Kotler 2010-11-01

Steven Kotler was forty years old, single, and facing an existential crisis when he met Lila, a woman devoted to animal rescue. "Love me, love my dogs," was her rule, and Steven took it to heart. Spurred to move by a housing crisis in Los Angeles, Steven, Lila - and their eight dogs, then ten, then twenty, and then they lost count - bought a postage-stamp-sized farm in Chimayo, New Mexico. *A Small Furry Hope* chronicles their adventures at Rancho de Chihuahua, the sanctuary they created for their pack with special needs: the very old, the very sick, and, as Kotler says, "the really retarded." An insider look at the culture of dog rescue, *A Small Furry Prayer* weaves personal experience, and scientific inquiry into a fast-paced, fun-filled narrative that explores what it means to devote one's life to the furry and the four-legged. Along the way, Kotler combs through every aspect of canine-human relations, from long human history with dogs to brand new research into the neuroscience of canine companionship, in the end discovering why living in a world made of dog may be the best way to uncover the truth about what it really means to be human.

The Rise of Superman - Steven Kotler 2014

Using years of research and interviews with adventure sports athletes, the New York Times best-selling author of *Abundance* and *A Small, Furry Prayer* attempts to unlock the secrets to ultimate human performance and the state of consciousness called "flow." 25,000 first printing.

Exponential Organizations - Salim Ismail 2014-10-14

Frost & Sullivan's 2014 Growth, Innovation, and Leadership Book of the Year "EXPONENTIAL ORGANIZATIONS should be required reading for anyone interested in the ways exponential technologies are reinventing best practices in business." —Ray Kurzweil, Director of Engineering at Google In business, performance is key. In performance, how you organize can be the key to growth. In the past five years, the business world has seen the birth of a new breed of company—the Exponential Organization—that has revolutionized how a company can accelerate its growth by using technology. An ExO can eliminate the incremental, linear way traditional companies get bigger, leveraging assets like community, big data, algorithms, and new technology into achieving performance benchmarks ten times better than its peers. Three luminaries of the business world—Salim Ismail, Yuri van Geest, and Mike Malone—have researched this phenomenon and documented ten characteristics of Exponential Organizations. Here, in *EXPONENTIAL ORGANIZATIONS*, they walk the reader through how any company, from a startup to a multi-national, can become an ExO, streamline its performance, and grow to the next level. "EXPONENTIAL ORGANIZATIONS is the most pivotal book in its class. Salim examines the future of organizations and offers readers his insights on the concept of Exponential Organizations, because he himself embodies the strategy, structure, culture, processes, and systems of this new breed of company." —John Hagel, The Center for the Edge Chosen by Benjamin Netanyahu, Prime Minister of Israel, to be one of Bloomberg's Best Books of 2015

Hustle - Neil Patel 2016-09-13

A dynamic, game-changing guide to finding success and fearlessly outsmarting the system Too often we feel like underdogs fighting a system that stacks the odds against us. We work hard, follow the rules, and dream of a better life. But these days, working harder doesn't always lead to fulfillment. In fact, according to Gallup research, nearly 90 percent of people feel disconnected from their jobs. So how do you break free from the drudgery and achieve more success on your own terms? You hustle. The secret lies in making manageable tweaks and placing small bets on pursuits that propel you from who you are today to the person you're destined to become. In *Hustle*, Neil Patel, Patrick Vlaskovits, and Jonas Koffler--three of the nation's top entrepreneurs and consultants--have teamed up to teach you how to look at work and life through a new lens--one based on discovering projects you enjoy and the people and opportunities that support your talents, growth, income, and happiness. The authors reveal their groundbreaking three-part framework of Heart, Head, and Habits. Along the way, you will learn to redefine hustle as the optimal path to success using powerful, often counterintuitive, advice, including: • Why you must own your dreams, not rent dreams from others • Ways to create your own luck and "POP" • How to betray yourself to stay true to yourself--and develop your potential • The four major career hustles and the path that's best for you More than just an inspirational career guide, *Hustle* aims to fundamentally transform the way you work and live, and give yourself permission to thrive in today's uncertain world.

Breakpoint: Why the Web will Implode, Search will be Obsolete, and Everything Else you Need to Know about Technology is in Your Brain - Jeff Stibel 2013-07-23

What can the human brain and its relationship to the internet tell us about our society, our technologies, and our businesses? A lot, as it turns out. The internet today is a virtual replica of the brain, and the networks that leverage it grow and collapse in ways that are easily predictable if you understand the brain and other biological networks. We're living in the midst of a networking revolution. All of the major technology innovations of the 21st century - social networking, cloud computing, search engines, and crowdsourcing, to name a few - leverage the internet and are thus bound by the rules of networks. We've seen the exponential growth of these technologies, and they've led to a more efficient and tightly connected world. But what many people don't realize is that all networks eventually reach a breakpoint and collapse. This happens in the brain, it happens in nature, it happened to MySpace, and it will happen to Facebook and Google. It is critical to understand where the breakpoint is in the networks you use in order to achieve optimum success. Navigating the world of new technologies today can be like walking through a minefield unless you know the path. Imagine what you could do with a roadmap for where things are headed? In this fascinating look at the future of business and technology, neuroscientist and entrepreneur Jeff Stibel shows how the brain can act as a guide to understanding the future of the internet and the constellation of businesses and technologies that run on it. He'll show how leaders like Marissa Mayer are using artificial intelligence to literally remake Yahoo! and how startups like oDesk and Kickstarter are using crowdsourcing, the next wave of revolutionary technology, to create something much larger and "smarter" than the sum of their parts. Stibel offers a fresh perspective about the future of business and technology in a candid and engaging manner.

Thought Economics - Vikas Shah 2021-02-04

'Stimulating, intelligent and enjoyable discussions of the most important issues of our day.' STEVEN PINKER 'From entrepreneurs to athletes, and world leaders to entertainers, this is a fascinating collection of interviews with some of the world's most influential individuals.' MARK CUBAN 'Thought Economics is a fine rebuke to the soundbite culture; these interviews are driven by real curiosity, and there is a wealth of wisdom here.' EDWARD STOURTON _____ Since 2007, entrepreneur and philanthropist Vikas Shah has been on a mission to interview the people shaping our century. Including conversations with Nobel prizewinners, business leaders, politicians, artists and Olympians, he has been in the privileged position of questioning the minds that matter on the big issues that concern us all. We often talk of war and conflict, the economy, culture, technology and revolutions as if they are

something other than us. But all these things are a product of us - of our ideas, our dreams and our fears. We live in fast-moving and extraordinary times, and the changes we're experiencing now, in these first decades of the twenty-first century, feel particularly poignant as decisions are made that will inform our existence for years to come. What started out as a personal interest in the mechanisms that inform our views of the world, and a passion for understanding, has grown into a phenomenal compilation of once-in-a-lifetime conversations. In this incredible collection, Shah shares some of his most emotive and insightful interviews to date.

The Future Is Faster Than You Think - Peter H. Diamandis 2020-01-28

From the New York Times bestselling authors of *Abundance* and *Bold* comes a practical playbook for technological convergence in our modern era. In their book *Abundance*, bestselling authors and futurists Peter Diamandis and Steven Kotler tackled grand global challenges, such as poverty, hunger, and energy. Then, in *Bold*, they chronicled the use of exponential technologies that allowed the emergence of powerful new entrepreneurs. Now the bestselling authors are back with *The Future Is Faster Than You Think*, a blueprint for how our world will change in response to the next ten years of rapid technological disruption.

Technology is accelerating far more quickly than anyone could have imagined. During the next decade, we will experience more upheaval and create more wealth than we have in the past hundred years. In this gripping and insightful roadmap to our near future, Diamandis and Kotler investigate how wave after wave of exponentially accelerating technologies will impact both our daily lives and society as a whole. What happens as AI, robotics, virtual reality, digital biology, and sensors crash into 3D printing, blockchain, and global gigabit networks? How will these convergences transform today's legacy industries? What will happen to the way we raise our kids, govern our nations, and care for our planet? Diamandis, a space-entrepreneur-turned-innovation-pioneer, and Kotler, bestselling author and peak performance expert, probe the science of technological convergence and how it will reinvent every part of our lives—transportation, retail, advertising, education, health, entertainment, food, and finance—taking humanity into uncharted territories and reimagining the world as we know it. As indispensable as it is gripping, *The Future Is Faster Than You Think* provides a prescient look at our impending future.

Unreasonable Success and How to Achieve It - Richard Koch 2020-09-22

Can We Map Success? Successful people typically don't plan their success. Instead they develop a unique philosophy or attitude that works for them. They stumble across strategies which are shortcuts to success, and latch onto them. Events hand them opportunities they could not have anticipated. Often their peers with equal or greater talent fail while they succeed. It is too easy to attribute success to inherent, unstoppable genius. Bestselling author and serial entrepreneur Richard Koch charts a map of success, identifying the nine key attitudes and strategies can propel anyone to new heights of accomplishment: Self-belief Olympian Expectations Transforming Experiences One Breakthrough Achievement Make Your Own Trail Find and Drive Your Personal Vehicle Thrive on Setbacks Acquire Unique Intuition Distort Reality With this book, you can embark on a journey towards a new, unreasonably successful future.

What You're Really Meant to Do - Robert Steven Kaplan 2013-04-16

How do you create your own definition of success—and reach your unique potential? Building a fulfilling life and career can be a daunting challenge. It takes courage and hard work. Too often, we charge down a path leading to “success” as defined by those around us—and ultimately, are left feeling dissatisfied. Each of us is unique and brings distinctive skills and qualities to any situation. So why is it that most of us fail to spend sufficient time learning to understand ourselves and creating our own definition of success? The truth is, it can seem so natural and so much easier to just do what everyone else is doing—for now—leaving it for later to develop our best selves and figure out our own unique path. Is there a road map that will enable you to defy conventional wisdom, resist peer pressure, and carve out a path that fits your unique skills and passions? Robert Steven Kaplan, leadership expert and author of the highly successful book *What to Ask the Person in the Mirror*, regularly advises executives and students on how to tackle these questions. In this indispensable new book, Kaplan shares a specific and actionable approach to defining your own success and reaching your potential. Drawing on his years of experience, Kaplan proposes an integrated plan for identifying and achieving your goals. He outlines specific steps and exercises to help you understand yourself more deeply, take control of your career, and build your capabilities in a way that fits your passions and aspirations. Are you doing what you're really meant to do? If you're ready to face this question, this book can help you change your life.

How to Make a Spaceship - Julian Guthrie 2016-09-20

A New York Times bestseller! The historic race that reawakened the promise of manned spaceflight A Finalist for the PEN/E. O. Wilson Literary Science Writing Award Alone in a Spartan black cockpit, test pilot Mike Melvill rocketed toward space. He had eighty seconds to exceed the speed of sound and begin the climb to a target no civilian pilot had ever reached. He might not make it back alive. If he did, he would make history as the world's first commercial astronaut. The spectacle defied reason, the result of a competition dreamed up by entrepreneur Peter Diamandis, whose vision for a new race to space required small teams to do what only the world's largest governments had done before. Peter Diamandis was the son of hardworking immigrants who wanted their science prodigy to make the family proud and become a doctor. But from the age of eight, when he watched Apollo 11 land on the Moon, his singular goal was to get to space. When he realized NASA was winding down manned space flight, Diamandis set out on one of the great entrepreneurial adventure stories of our time. If the government wouldn't send him to space, he would create a private space flight industry himself. In the 1990s, this idea was the stuff of science fiction. Undaunted, Diamandis found inspiration in an unlikely place: the golden age of aviation. He discovered that Charles Lindbergh made his transatlantic flight to win a \$25,000 prize. The flight made Lindbergh the most famous man on earth and galvanized the airline industry. Why, Diamandis thought, couldn't the same be done for space flight? The story of the bullet-shaped *SpaceShipOne*, and the other teams in the hunt, is an extraordinary tale of making the impossible possible. It is driven by outsized characters—Burt Rutan, Richard Branson, John

Carmack, Paul Allen—and obsessive pursuits. In the end, as Diamandis dreamed, the result wasn't just a victory for one team; it was the foundation for a new industry and a new age.

The Singularity Is Near - Ray Kurzweil 2005-09-22

"Startling in scope and bravado." —Janet Maslin, *The New York Times*
"Artfully envisions a breathtakingly better world." —Los Angeles Times
"Elaborate, smart and persuasive." —The Boston Globe
"A pleasure to read." —The Wall Street Journal
One of CBS News's Best Fall Books of 2005 • Among St Louis Post-Dispatch's Best Nonfiction Books of 2005 • One of Amazon.com's Best Science Books of 2005
A radical and optimistic view of the future course of human development from the bestselling author of *How to Create a Mind* and *The Singularity is Nearer* who Bill Gates calls "the best person I know at predicting the future of artificial intelligence" For over three decades, Ray Kurzweil has been one of the most respected and provocative advocates of the role of technology in our future. In his classic *The Age of Spiritual Machines*, he argued that computers would soon rival the full range of human intelligence at its best. Now he examines the next step in this inexorable evolutionary process: the union of human and machine, in which the knowledge and skills embedded in our brains will be combined with the vastly greater capacity, speed, and knowledge-sharing ability of our creations.

Disrupt Yourself - Jay Samit 2015-07-16

In *Disrupt Yourself*, innovator and digital media expert Jay Samit reveals how to achieve your goals and permanently alter the status quo through the art of self-disruption. In today's ever-changing and often-volatile business landscape, adaptability and creativity are more crucial than ever. Samit describes how specific strategies that help companies flourish - challenging assumptions, pinpointing one's unique value, and identifying weaknesses in the structure of current industries - can be applied at an individual level. Incorporating stories from his own experience and anecdotes from other innovators and disruptive businesses - including Richard Branson, Steve Jobs, YouTube, the BBC, Virgin Media and many more - Samit shows how personal transformation can reap entrepreneurial and professional rewards. *Disrupt Yourself* offers clear and empowering advice for anyone looking to break through a creative barrier; anyone with a big idea but no idea how to apply it; and for anyone worried about being made irrelevant in an era of technological transformation. This engaging, perspective-shifting book demystifies the mechanics of disruption for individuals and businesses alike.

Into the Black Nowhere - Meg Gardiner 2019-06-25

From award-winning author Meg Gardiner, co-author of *Michael Mann's Heat 2*--In this exhilarating thriller inspired by real-life serial killer Ted Bundy, FBI profiler Caitlin Hendrix faces off against a charming, merciless serial killer. In southern Texas, on Saturday nights, women are disappearing. One vanishes from a movie theater. Another, from her car at a stoplight. A mother is ripped from her home while checking on her baby. Rookie FBI agent Caitlin Hendrix, newly assigned to the FBI's elite Behavioral Analysis Unit, fears that a serial killer is roaming the dark roads outside Austin. Caitlin's unit discovers the first victim's body in the woods, laid out in a bloodstained white baby-doll nightgown. A second victim in a white nightie lies deeper in the forest's darkness. Around the bodies, Polaroid photos are stuck in the earth like headstones, picturing other women with their wrists slashed. The women in the woods are not

the killer's first victims, nor are they likely to be his last. To track the UNSUB, Caitlin must get inside his mind; he is a confident, meticulous killer, capable of charming his victims until their guard is down, snatching them in plain sight. He then plays out a twisted fantasy—turning them into dolls for him to possess, control, and ultimately destroy. Caitlin's profile leads the FBI to focus on one man: a charismatic, successful professional who easily gains people's trust. But can they apprehend him before it's too late? As Saturday night approaches, Caitlin and the FBI enter a desperate game of cat and mouse, racing to capture the cunning predator before he claims his next victim.

Learning by Doing - James Bessen 2015-01-01

Technology is constantly changing our world, leading to more efficient production. In the past, technological advancements dramatically increased wages, but during the last three decades, the median wage has remained stagnant. Many of today's machines have taken over the work of humans, destroying old jobs while increasing profits for business owners and raising the possibility of ever-widening economic inequality. Author James Bessen argues that avoiding this fate will require unique policies to develop the knowledge and skills necessary to implement the rapidly evolving technologies. At present this technical knowledge is mostly unstandardized and difficult to acquire, learned through job experience rather than in classrooms. Nor do current labor markets generally provide strong incentives for learning on the job. Basing his analysis on intensive research into economic history as well as today's labor markets, the author explores why the benefits of technology take years, sometimes decades, to emerge. Although the right policies can hasten this process, policy has moved in the wrong direction in recent decades, protecting politically influential interests to the detriment of emerging technologies and broadly shared prosperity.

Transcendence - R.U. Sirius 2015-01-01

"A deceptively light treatment of mind-blowing technologies and their cultural, social and political impact. This book will put your mind on fire."—Giulio Prisco, *Hacked.com*
Transhumanism is an international movement that advocates the use of science and technology to overcome the natural limitations experienced by humanity, through such developments as: the Singularity—the creation of machine intelligences that exceed the capacities of our biological brains the ability to replicate individual minds and put them into solid-state bodies or virtual environments individual control over mental and emotional states for enhancing functionalities and/or ecstasies Some of this is happening now. Some it is still in the minds of dreamers. In nearly ninety A-Z entries, *Transcendence* provides a multilayered look at the accelerating advances in artificial intelligence, cognitive science, genomics, information technology, nanotechnology, neuroscience, space exploration, synthetic biology, robotics, and virtual worlds that are making transhumanism a reality. Entries range from Cloning and Cyborg Feminism to Designer Babies and Memory-Editing Drugs. In addition, the book notes historical predecessors and personalities, both in mythology and history—ranging from Timothy Leary to Michael Jackson to Ray Kurzweil. It also introduces the culture around Transhumanism, covering all the geeky obsessions of the Transhumanist movement. "A new book deciphering the surreal truths, questionable fictions, and high weirdness of the Singularity . . . Infotaining, irreverent, and frequent piss-taking paperback."—Boing Boing
"RU Sirius and Jay Cornell present us with their own psychedelic guide to the galaxy in this adventurous idea-rich book, bootstrapping on emerging technologies that beckon us to take control of our evolutionary destiny and lead humanity towards radical new landscapes of mind, of dream, of cosmos, of possibility."—Jason Silva

Mother Daughter Me - Katie Hafner 2014-04-08

The complex, deeply binding relationship between mothers and daughters is brought vividly to life in Katie Hafner's remarkable memoir, an exploration of the year she and her mother, Helen, spent working through, and triumphing over, a lifetime of unresolved emotions. Dreaming of a "year in Provence" with her mother, Katie urges Helen to move to San Francisco to live with her and Zoë, Katie's teenage daughter. Katie and Zoë had become a mother-daughter team, strong enough, Katie thought, to absorb the arrival of a seventy-seven-year-old woman set in her ways. Filled with fairy-tale hope that she and her mother would become friends, and that Helen would grow close to her exceptional granddaughter, Katie embarked on an experiment in intergenerational living that she would soon discover was filled with land mines: memories of her parents' painful divorce, of her mother's drinking, of dislocating moves back and forth across the country, and of Katie's own widowhood and bumpy recovery. Helen, for her part, was also holding difficult issues at bay. How these three women from such different generations learn to navigate their challenging, turbulent, and ultimately healing journey together makes for riveting reading. By turns heartbreaking and funny—and always insightful—Katie Hafner's brave and loving book answers questions about the universal truths of family that are central to the lives of so many. Praise for *Mother Daughter Me* "The most raw, honest and engaging memoir I've read in a long

time."—KJ Dell'Antonia, *The New York Times* "A brilliant, funny, poignant, and wrenching story of three generations under one roof, unlike anything I have ever read."—Abraham Verghese, author of *Cutting for Stone* "Weaving past with present, anecdote with analysis, [Katie] Hafner's riveting account of multigenerational living and mother-daughter frictions, of love and forgiveness, is devoid of self-pity and unafraid of self-blame. . . . [Hafner is] a bright—and appealing—heroine."—Cathi Hanauer, *Elle* "[A] frank and searching account . . . Currents of grief, guilt, longing and forgiveness flow through the compelling narrative."—Steven Winn, *San Francisco Chronicle* "A touching saga that shines . . . We see how years-old unresolved emotions manifest."—Lindsay Deutsch, *USA Today* "[Hafner's] memoir shines a light on nurturing deficits repeated through generations and will lead many readers to relive their own struggles with forgiveness."—Erica Jong, *People* "An unusually graceful story, one that balances honesty and tact . . . Hafner narrates the events so adeptly that they feel enlightening."—*Harper's* "Heartbreakingly honest, yet not without hope and flashes of wry humor."—*Kirkus Reviews* "[An] emotionally raw memoir examining the delicate, inevitable shift from dependence to independence and back again."—*O: The Oprah Magazine* (Ten Titles to Pick Up Now)

The Road Less Traveled and Beyond - M. Scott Peck 1998-01-02
The founder of the Foundation for Community Encouragement draws on his counseling experience to lead readers to the spiritual simplicity that lies on the other side of complexity and explains how to cope with the fears and shortcomings of life
