**23 Letter-Coded Melodies for Xylophone** - Helen Winter 2018-06

This book was written to help the beginner, whether child or adult, learn to play music in a simple and easy way that requires no knowledge of reading music. Just by following the circles with letters, you will sound like an experienced musician. We made our sheet music large and as simple as possible. You'll play cool kids songs by circles. No musical staff or notes. Playing music can be as simple and enjoyable as a game. Some songs were adapted for a one-octave instrument. That is why most songs are simplified. That is our goal to give you what's necessary to play beautiful music while having fun. This book is just as suitable for the chromatic xylophone as it is for the diatonic. Most songs in this sheet music book can be played within one octave on the xylophone using only 8 notes. Several songs need 1.5 or 2 octaves or a 10-15 note xylophone. The 2 last songs require a chromatic xylophone since they have flat notes. For some melodies, we group circles to show the rhythm. Most songs are simple, popular and fanny, some songs are Christian, they are perfectly suitable for a church choir or orchestra. Recommended for ages 3 and up. Attention: Songs have been transposed for a DIATONIC range. Some melodies might be changed and simplified. If you have flat keys on your instrument, please use the classic music score for piano. List of kids songs: 1. Hot Cross Buns 2. Are you sleeping? 3. Mary Had A Little Lamb 4. The Wheels On The Bus 5. Twinkle, Twinkle Little Star 6. Old MacDonald Had A Farm 7. Do You Know The Muffin Man? 8. London Bridge is Falling Down 9. Jingle Bells 10. We wish you a Merry Christmas 11. Brahms's Lullaby 12. Ode to Joy 13. Happy Birthday 14. La Cucaracha 15. Oh! Susanna 16. Itsy Bitsy Spider 17. The First Noel 18. Yankee Doodle 19. Row, Row, Row Your Boat 20. Jolly Saint Nicholas 21. Amazing Grace 22. Silent night 23. Beethoven - For Elise These fanny kids songs are possible to play on any kind of diatonic xylophone, only 2 last songs are for the chromatic xylophone. Easy play songs were adapted especially for beginners. Also our kids sheet musics are suitable for piano, melodica, kalimba, marimba, synthesizer, glockenspiel, bells, and any pitched toy instrument with at least 8 notes.

**Super Easy Keyboard for Kids. Learn How to Transpose** - Helen Winter 2021-02-22

This book is for kids or adults who are absolute beginners in music. We tried to write it as simply as possible. We use an "easy-to-play" visual aid so any beginner can play music quickly. Neither kids nor their parents have to read sheet music or have a musical background. No previous knowledge is necessary. Every song has a large and simple, color and letter-coded visual, along with traditional sheet music. The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music. We try to make this transition as easy as a game, where children advance to higher levels themselves. There are totally 22 songs and 2 options to help children to begin to play right away. PLAYING BY LETTER CIRCLE PLAY WITH THE MUSICAL STAFF The player can first follow the circles and then repeat with the classic note symbols and staff. The helpful letters are always above the notes. There are 3 parts in this book. They are equal to 3 levels. Level 1. Songs that are played in one octave. All songs here appear twice: once written with circles and the next time with classic music notes. This will help kids remember the staff notes. For example: Mary Had a Little Lamb - Ver 1 - Circles Mary Had a Little Lamb - Ver 1 - Notes Level 2 In this part, you will find one version with both circles and notes, and a more advanced version of the song with notes and musical notation. For example: Hot Cross Buns - Version 1 - CIRCLES Hot Cross Buns - Version 1 - NOTES Hot Cross Buns - Version 2 - NOTES (Here the player will play songs in a different key and learn how to transpose.) Generally, the version of the song written with sheet music is a little bit more complex than a letter-coded version. Such versions already have music notations such as rests or beams, etc. You can find an illustrated explanation of the notation at the end of this book. Level 3 Here, the first two songs are versions of the same melody (different combinations of notes) written with circles and notes. This is important so that the beginner can see how the same melody can be played in different keys. First of all, this book is addressed to newcomers to any keyboard instrument (such as Piano or Synthesizer). We offer 22 one-hand piano

songs. Also, it is a perfect self-training guide for children and beginner adults to mastering the challenges of percussion instruments such as xylophone, glockenspiel, melodica, or recorder. Additionally, you find funny riddles with engaging activities to teach musical notes and symbols.

*Play Melodica with Both Hands! Vol. 1* - Ferdinand Beyer 2018-10-20  
An adaptation of the well-known F. Beyer piano method "Preparatory School for Piano", op. 101. Volume I - Beginner to Intermediate The intent of this publication is to have a few beginning exercises to start playing the melodica the "Japanese" way: vertical, with both hands. Playing the melodica in this style means having the left hand reversed thus the need, even for experienced piano players, to re-train the brain in the use of the left hand with mirrored fingerings: the use of simple materials can be of tremendous help in doing so. This publication contains a short essay by Alan Brinton, Professor Emeritus of Philosophy at Boise State University, where he presents us with a brief history of the melodica and its playing styles. After a brief technical introduction by the author, the book contains the first part of the original book, including the introductory music theory elements and the first 64 exercises. Everything was adapted to be played with a standard 32-keys melodica. You can download a few sample pages from the following link:

There are 3 levels in this book: Level 1 and 2 are for beginners and use circles with letter notation, instead of notes. Level 3 has letter notation and traditional musical notes. Level 1. Songs which are possible to play within the main octave. Level 2. Songs which need to be played in an octave other than the main octave, or songs which involve the flat notes. Now you will need to select the proper note/key by ear. Level 3. These songs have been written for one octave with ordinary "adult" musical notes and symbols. To begin to play right away without any musical knowledge, you just need to obtain and apply the stickers with letter-notation and on each key of your melodica. Most melodicas include these stickers, but you can buy them separately or create your own using common peelable paper stickers. In the sheet music book, you will find 28 funny kids songs There are simple popular songs: kids learning (ABC), sleeping, Christian, church, animals. Songs: 1. Hot Cross Buns 2. Are you sleeping? 3. *Melodica for Absolute Beginners. Play by Letter. Learn to Transpose* - Helen Winter 2020-12-14

The Melodica is one of the best educational instruments. The Melodica is light and portable The Melodica develops both keyboard skills and breath control The Melodica is perfect for group play The Melodica works like a clarinet The Melodica plays like a piano The Melodica sounds like a harmonica or an accordion This book is for kids or adults who are absolute beginners in music. We tried to write it as simply as possible. That is why we use an "easy-to-play" visual aid so any beginner can play music quickly. Neither kids nor their parents have to read sheet music or have a musical background. No previous knowledge is necessary. None at all. Every song has a large and simple, color and letter-coded visual, along with traditional sheet music. The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music. We try to make this transition as easy as a game, where children advance to higher levels themselves. There is a total of 22 songs and 3 options to help children to begin to play right away. PLAYING BY COLOR CIRCLE PLAY BY LETTER PLAY WITH THE MUSICAL STAFF The player can first follow the circles and then repeat with the classic note symbols and staff. The helpful letters are always above the notes. There are 3 parts in this book. They are equal to 3 levels. Level 1. Songs that are played in one octave. All songs here appear twice: once written with circles and the next time with classic music notes. This will help kids remember the staff notes. For example: Mary Had a Little Lamb - Ver 1 - Circles Mary Had a Little Lamb - Ver 1 - Notes Level 2 In this part, you will find one version with both circles and notes and a more advanced version of the song with notes and musical notation. For example: Hot Cross Buns - Ver 1 - CIRCLES Hot Cross Buns - Ver 1 - NOTES Hot Cross Buns - Ver 2 - NOTES (Here the player will play songs in a different key and learn to transpose.) Generally, the version of the song written with sheet music is a little bit more complex than a letter-coded version. Such versions already have music notations

such as rests or beams, etc. You can find an illustrated explanation of the notation at the end of this book. Level 3 Here, the first two songs are versions of the same melody (different combinations of notes) written with circles and notes. This is important so that the beginner can see how the same melody can be played in different keys. First of all, this book is addressed to newcomers to any keyboard instrument (such as Piano or Synthesizer, not only Melodica). Also, it is a perfect self-training guide for children and beginner adults to mastering the challenges of percussion instruments such as kalimba, marimba, xylophone, glockenspiel, or even color bell set.
