## **Cases and Materials on Sales -**

**CasebookPlus** - MARION W. BENFIELD.

GREENFIELD JR (MICHAEL M.) 2019-03-26

The objectives of the Seventh Edition are twofold: to help the student understand the substantive law of sales and develop the skills of statutory analysis in the context of a comprehensive statute that contains critical

definitions and numerous cross references. The materials consist of cases, text, and problems. The cases are selected because of their effectiveness as teaching materials, presenting difficult legal questions and explaining the business background of the disputes. The notes elaborate on the background and push the student to question the rationale of the court.

The problems further explore the soundness of the court's decision and present new issues of statutory analysis for the student to consider. They require the student to dig deeply into the language of the statute and the Official Comments, working back and forth among the various sections that are relevant to solving the problem.

**Environmental Governance in Kenya** - C. Odidi Okidi 2008

Kenya is one of about 42 African countries which have enacted framework environmental laws. 14 January 2000 was the Date of Commencement of the Environment Management and Co-ordination Act (EMCA) after its adoption in December 1999 and receipt of Presidential Assent on 6 January 2000. From that date, all sectoral laws were expected to be reviewed or amended to ensure consistency with the requirements of EMCA. Under Section 148 of EMCA: "Any written law, in force immediately before the coming into force of this Act, relating to the management of the environment shall have effect subject to modification as may be necessary to give effect to this Act, and where the provisions of any such law conflict with any provisions of this Act, the provisions of this Act shall prevail". This book is an appraisal of the extent to which this provision

has been implemented. It critically analyses environmental law in Kenya with a view to identifying the convergences and divergences between select sectoral laws and EMCA. The ultimate objective is to support internal harmonization of the corpus of environmental law in Kenya.

2010-01-01

With this new edition, Administrative Law: Cases and Materials continues to present the complex substance of administrative law in a format that is both intellectually satisfying and easily understandable. They will become familiar with the so-called progressive

movement and its regulatory offspring, the independent agency, with the New Deal regulatory agenda, with the post-World War II consensus embodying the Administrative Procedure Act, with the problem of capture, with aggressive modes of judicial review in response, with the problem ossification of rule-making, and with an array of judicial reinterpretations of settled precedents. This focus on doctrinal coherence and historical background provides a rich intellectual experience. This new Second Edition also: Includes new cases through 2010 Term of the Supreme Court, including *Free Enterprise Fund v. Public Company Accounting Oversight Board*, the latest separation-of-powers decision by the U.S. Supreme Court, and last year's *FCC v. Fox Telev. Stations, Inc.* gloss on hard-look judicial review; Focuses upon the relationships among various administrative law doctrines, such as the relation between the substantial-evidence and arbitrary-and-capricious review standards and the relations

between those review standards and the Chevron/Skidmore deference standards; and Examines split-enforcement agencies such as OSHA establishes as well as analogous structures in the benefit agencies in addition to omnipresent unitary regulatory agency.
