The Fifth Child - Doris Lessing
2010-11-17

Doris Lessing's contemporary gothic horror story—centered on the birth of a baby who seems less than human—probes society's unwillingness to recognize its own brutality. Harriet and

David Lovatt, parents of four children, have created an idyll of domestic bliss in defiance of the social trends of late 1960s England. While around them crime and unrest surge, the Lovatts are certain that their old-fashioned contentment can protect them from the world outside—until the birth of their fifth baby. Gruesomely goblin-like in appearance, insatiably hungry, abnormally strong and violent, Ben has nothing innocent or infant-like about him. As he grows older and more terrifying, Harriet finds she cannot love him, David cannot bring himself to touch him, and their four older children are afraid of him. Understanding that he will never be accepted anywhere, Harriet and David are torn between their instincts as parents and their shocked reaction to this fierce and unlovable child whose existence shatters their belief in a benign world.

Exploring Intercultural

Communication investigates the role of language in intercultural communication, paying particular attention to the interplay between cultural diversity and language practice. This second edition increases and updates the coverage on emerging key topics, including symbolic power, communicative turbulence, conversational inequality, stereotypes, racism, Nationality and Ethnicity talk and the impact and role of technology in intercultural communication. Including global examples from a range of genres, this book is an indispensable resource for students taking language and intercultural communication modules within applied linguistics, TESOL, education or communication studies courses.

continent. The most exotic locations are now destinations for mass tourism. Small business people are dealing across frontiers and language barriers like never before. The Internet brings different languages and cultures to our finger-tips. English, the hybrid language of an island at the western extremity of Europe seems to have an unrivalled position as an international medium of communication. But historically periods of cultural and economic domination have never lasted forever. Do we not lose something by relying on the wide spread use of English rather than discovering other languages and cultures? As citizens of this shrunken world, would we not be better off if we were able to speak a few languages other than our own? The answer is obviously yes. Certainly Steve Kaufmann thinks so, and in his busy life as a diplomat and businessman he managed to learn to speak nine languages fluently and observe first hand some of the dominant cultures of Europe and Asia. Why do not more

people do the same? In his book *The Way of The Linguist, A language learning odyssey*, Steve offers some answers. Steve feels anyone can learn a language if they want to. He points out some of the obstacles that hold people back. Drawing on his adventures in Europe and Asia, as a student and businessman, he describes the rewards that come from knowing languages. He relates his evolution as a language learner, abroad and back in his native Canada and explains the kind of attitude that will enable others to achieve second language fluency. Many people have taken on the challenge of language learning but have been frustrated by their lack of success. This book offers detailed advice on the kind of study practices that will achieve language breakthroughs. Steve has developed a language learning system available online at: www.thelinguist.com.

Words and functions: communicating in english -

Elena Ungari 2015-02-04

Il presente lavoro intende essere un supporto per lo studio e l'esercitazione della Lingua Inglese soprattutto nelle sue particolarità lessicali e funzionali-comunicative. Lo strumento didattico qui proposto si propone innanzitutto di aiutare gli studenti ad ampliare il proprio vocabolario e ad esercitarlo correttamente in contesti scritti, quindi di fornire agli studenti stessi gli strumenti linguistici adeguati per l'approccio al testo scritto ed alla sua comprensione. Il

volume si compone di nove Unità, organizzate tematicamente. Alcune di queste sono a loro volta suddivise in due parti, ognuna delle quali basata su argomenti fra loro affini o correlati. Le aree tematiche scelte sono fra quelle più familiari allo studente e riscontrabili nelle situazioni ed esperienze della quotidianità: relazioni interpersonali, familiari e sociali, le attività di ogni giorno, la scuola, lo sport, gli hobbies ed il tempo libero, il cibo, lo shopping, l'ambiente, i viaggi ed il turismo. Ogni Unità si articola in diverse sezioni, di difficoltà crescente, che intendono guidare lo studente nella progressiva acquisizione della padronanza della lingua nel suo passaggio dall'organizzazione frasale a quella testuale. All'interno di ogni singola Unità, la prima sezione è denominata "Vocabulary": si tratta di un elenco di vocaboli e funzioni comunicative fondamentali, relativi al tema oggetto dell'Unità; tali vocaboli e funzioni sono presentati nella

versione inglese e nella traduzione italiana. A completamento viene fornita la spiegazione di parole, locuzioni o aspetti lessicali e comunicativi, che possono essere di interesse particolare per gli studenti o che per gli stessi possono essere motivo di confusione. La seconda sezione è denominata "Testing Vocabulary" e comprende esercizi che testano la capacità di usare correttamente all'interno di semplici frasi il vocabolario acquisito. La terza sezione prende in esame il meccanismo di formazione delle parole (Word Formation) attraverso l'utilizzo di suffissi o prefissi. Tale sezione si correda di esercizi che richiedono allo studente il completamento di spazi bianchi (gaps) con parole create da un vocabolo-base fornito. La quarta sezione si concentra sulla comprensione testuale (Reading Comprehension). Dopo l'acquisizione del lessico di base, gli studenti possono così avvicinarsi al testo nella sua più articolata e complessa organizzazione. Gli esercizi

scelti a tale riguardo comprendono testi con spazi bianchi da riempirsi con vocaboli forniti a scelta multipla (multiple choice cloze texts) e / o testi completi corredati da domande con opzioni di risposte sempre a scelta multipla. Alcune Unità contengono in tale sezione esercizi che richiedono di trovare informazioni in un testo e di completare una griglia relativa con dati desunti dal brano proposto. In altri capitoli, invece, si trovano jumbled texts, brevi frasi da riorganizzare in modo tale da ottenere un brano coeso. Ogni Unità comprende inoltre una Grammar Revision. Lontano dal volere essere una sezione grammaticale esaustiva, tale parte intende essere un "richiamo" degli argomenti grammaticali prevalenti all'interno dell'Unità e, soprattutto, un invito alla revisione delle particolarità grammaticali stesse all'interno del testo di grammatica di riferimento adottato. Al termine di questa introduzione si precisa che le fonti

bibliografiche da cui sono stati tratti brani e / o esercizi contenuti all'interno della seguente dispensa sono chiaramente indicate. Tale materiale, desunto da testi che spaziano dalla preparazione al PET a manuali adatti alla preparazione per il superamento del CAE, sono stati sottoposti ad una rielaborazione per conformarli alle esigenze dei destinatari della seguente pubblicazione. Come grammatica di riferimento si è preferito avvalersi del testo: Michael Swan, Practical English Usage, Oxford. Nato dall'esperienza didattica maturata in questi ultimi anni nell'ambito del SELDA e dal riscontro delle difficoltà che gli studenti si trovano ad affrontare nel loro approccio alla Lingua Inglese, il volume si propone ora auspicabilmente come ulteriore e valido strumento di studio e di approfondimento. methods in statistics to face complex problems and highly dimensional data, as well as the widespread availability of computer technology, is no news. The range of applications, instead, is unprecedented. As often occurs, new and complex data types require new strategies, demanding for the development of novel statistical methods and suggesting stimulating mathematical problems. This book is addressed to researchers working at the forefront of the statistical analysis of complex systems and using computationally intensive statistical methods.

Probability - Geoffrey

Grimmett 2014-08-21

Probability is an area of mathematics of tremendous contemporary importance across all aspects of human endeavour. This book is a compact account of the basic features of probability and random processes at the level of first and second year mathematics undergraduates and Masters' students in cognate fields. It is suitable for a first course in probability, plus a follow-up course in random processes including Markov chains. A special feature is the authors' attention to rigorous mathematics: not everything is rigorous, but the need for rigour is explained at difficult junctures. The text is enriched by simple exercises, together with problems (with very brief hints) many of which are taken from final examinations at Cambridge and Oxford. The first eight chapters form a course in basic probability, being an account of

events, random variables, and distributions - discrete and continuous random variables are treated separately - together with simple versions of the law of large numbers and the central limit theorem. There is an account of moment generating functions and their applications. The following three chapters are about branching processes, random walks, and continuous-time random processes such as the Poisson process. The final chapter is a fairly extensive account of Markov chains in discrete time. This second edition develops the success of the first edition through an updated presentation, the extensive new chapter on Markov chains, and a number of new sections to ensure comprehensive coverage of the syllabi at major universities.

English Medium Instruction

- Ernesto Macaro, 2018-02-19
Ernesto Macaro brings together a wealth of research on the rapidly expanding phenomenon of English Medium Instruction. Against a backdrop of theory, policy documents, and examples of practice, he weaves together research in both secondary and tertiary education, with a particular focus on the key stakeholders involved in EMI: the teachers and the students. Whilst acknowledging that the

momentum of EMI is unlikely to be diminished, and identifying its potential benefits, the author raises questions about the ways it has been introduced and developed, and explores how we can arrive at a true cost-benefit analysis of its future impact. "This state-of-the-art monograph presents a wide-ranging, multi-perspectival yet coherent overview of research, policy, and practice of English Medium Instruction around the globe. It gives a thorough, in-depth, and thought-provoking treatment of an educational phenomenon that is spreading on an unprecedented scale." Guangwei Hu, National Institute of Education, Singapore Additional online resources are available at www.oup.com/elt/teacher/emi Ernesto Macaro is Professor of Applied Linguistics at the University of Oxford and is the founding Director of the Centre for Research and Development on English Medium Instruction at the university. Liquid Life - Zygmunt Bauman 2013-04-18

'Liquid life' is the kind of life commonly lived in our contemporary, liquid-modern society. Liquid life cannot stay on course, as liquid-modern society cannot keep its shape for long. Liquid life is a precarious life, lived under

conditions of constant uncertainty. The most acute and stubborn worries that haunt this liquid life are the fears of being caught napping, of failing to catch up with fast moving events, of overlooking the 'use by' dates and being saddled with worthless possessions, of missing the moment calling for a change of tack and being left behind. Liquid life is also shot through by a contradiction: it ought to be a (possibly unending) series of new beginnings, yet precisely for that reason it is full of worries about swift and painless endings, without which new beginnings would be unthinkable. Among the arts of liquid-modern living and the skills needed to practice them, getting rid of things takes precedence over their acquisition. This and other challenges of life in a liquid-modern society are traced and unravelled in the successive chapters of this new book by one of the most brilliant and original social thinkers of our time.

Compact Preliminary for Schools is a focused, 50 - 60 hour course for Cambridge English: Preliminary for Schools, also known as Preliminary English Test (PET). The Student's Book features eight topic based units with focused exam preparation to maximise the performance of school-age learners. Units are divided in the order of the exam with pages on Reading, Writing, Listening and Speaking. A Grammar reference covers key areas in the syllabus and unit based wordlists include target vocabulary with definitions.

The Student's Book also features a revision section and full practice test. The accompanying CD-ROM provides interactive grammar, vocabulary and exam skills tasks including listening. Course users also have exclusive access to a further practice test with audio via a URL in the Student's Book.

The Language of Persuasion in Politics - Alan Partington
2017-09-27

This accessible introductory textbook looks at the modern relationship between politicians, the press and the public through the language they employ, with extensive coverage of key topics including: 'spin', 'spin control' and 'image' politics models of persuasion: authority, contrast, association pseudo-logical and 'post-truth' arguments political interviewing: difficult questions, difficult answers metaphors and metonymy rhetorical figures humour, irony and satire Extracts from speeches, soundbites, newspapers and blogs, interviews, press conferences,

election slogans, social media and satires are used to provide the reader with the tools to discover the beliefs, character and hidden strategies of the would-be persuader, as well as the counter-strategies of their targets. This book demonstrates how the study of language use can help us appreciate, exploit and protect ourselves from the art of persuasion. With a wide variety of practical examples on both recent issues and historically significant ones, every topic is complemented with guiding tasks, queries and exercises with keys and commentaries at the end of each unit. This is the ideal textbook for all introductory courses on language and politics, media language, rhetoric and persuasion, discourse studies and related areas.

Multimedia Communications -
Francesco De Natale

2012-12-06

Multimedia Communications is at the core of the advanced interactive services that make up today's Information Society. Videoconferencing, teleworking, teleshopping and video-on-demand will benefit from developments in broadband and mobile telecommunication systems, intelligent multimedia terminals and digital signal processing. The latest research

findings from these fields are presented here in the proceedings of the 10th Tyrrhenian Workshop on Digital Communications, held in Ischia, Italy, September 19 98. Focus is placed on the following four areas: Signal Processing for Multimedia Communications. Modeling, Analysis and Simulation of Multimedia Traffic Sources. Access Techniques. Multimode Multimedia Terminals. In particular, multimedia services and applications are presented. This comprehensive collection of papers will enable the reader to keep pace with the rapid changes that are taking place in this field. Experts have co-operated with top research centers worldwide, on an academic and industrial level, to make this an up-to-date reference volume for all those who are concerned with technological advances in Multimedia Distributed Systems.

American Patriots tells the story of the black servicemen and women who defended American ideals on the battlefield, even as they faced racism in the ranks and segregation on the home front. Through hundreds of original interviews with veterans of every war since World War I, historic accounts, and photographs, Gail Buckley brings these heroes and their struggles to life. We meet Henry O. Flipper, who withstood silent treatment from his classmates to become the first black graduate of West

Point in 1877. And World War II infantry medic Bruce M. Wright, who crawled through a minefield to shield a fallen soldier during an attack. Finally, we meet a young soldier in Vietnam, Colin Powell, who rose through the ranks to become, during the Gulf War, the first black chairman of the Joint Chiefs of Staff. Fourteen years in the making, American Patriots is a landmark chronicle of the brave men and women whose courage and determination changed the course of American history.
