**Unspeakable Sentences (Routledge Revivals)** - Ann Banfield  
2014-07-17

First published in 1982, this title grew from a series of essays on various aspects of narrative style; the result is a finished product that melds literary theory with linguistic methodology. It is argued that, where linguistic theory intersects with literary theory, it is narrative that provides the crucial 'experiment' for deciding between a communication and a non-communication theory of language and, by extension, of literature. Chapters discuss such areas as subjectivity in direct and indirect speech, the absence of the narrator, and the development of narrative style. With a detailed introduction to the subject, this reissue will be of value to students of linguistics and literature with a particular interest in narrative style and linguistic theory.

**The Moravian Night** - Peter Handke 2016-12-06

An odyssey through the mind and memory of a washed-up writer, from one of Europe's most provocative novelists mysteriously summoned to a houseboat on the Morava River, a few friends, associates, and collaborators of an old writer listen as he tells a story that will last until dawn: the tale of the once well-known writer's recent odyssey across Europe. As his story unfolds, it visits places that represent stages of the narrator's and the continent's past, many now lost or irrecoverably changed through war, death, and the subtler erosions of time. His wanderings take him from the Balkans to Spain, Germany, and Austria, from a congress of experts on noise sickness to a clandestine international gathering of jew's-harp virtuosos. His story and its telling are haunted by a beautiful stranger, a woman who has a preternatural hold over the writer and appears sometimes as a demon, sometimes as the longed-for destination of his travels. Powerfully alive, honest, and at times deliciously satirical, *The Moravian Night* explores the mind and memory of an aging writer, tracking the anxieties, angers, fears, and pleasures of a life inseparable from the recent history of Central Europe. In crystalline prose, Peter Handke traces and interrogates his own thoughts and perceptions while endowing the world with a mythic dimension. As Jeffrey Eugenides writes, "Handke's sharp eye is always finding a strange beauty amid this colorless world." *The Moravian Night* is at once an elegy for the lost and forgotten and a novel of self-examination and uneasy discovery, from one of world literature's great voices.

**Motivational Interviewing** - William Richard Miller 1991

Since the initial publication of this classic text, motivational interviewing (MI) has been used by countless clinicians in diverse settings. Theory and methods have evolved apace, reflecting new knowledge on the process of behavior change, a growing body of outcome research, and the development of new applications within and beyond the addictions field. Including 25 nearly all-new chapters, this revised and expanded second edition now brings MI practitioners and trainees fully up to date. William R. Miller and Stephen Rollnick explain how to work through ambivalence to facilitate change, present detailed guidelines for using their approach with a variety of clinical populations, and reflect on the process of learning MI. Chapters contributed by other leading experts then address such special topics as MI and the stages-of-change model; using the approach with groups, couples, and adolescents; and applications to general medical care, health promotion, and criminal justice settings.

**Theory of the Novel** - Guido Mazzoni 2017-01-02

In his theory of the novel, Guido Mazzoni explains that novels consist of stories told in any way whatsoever about the experiences of ordinary men and women who exist as contingent beings within time and space. Novels allow readers to step into other lives and other versions of truth, each a small, local world, absolute in its particularity.

**A Theory of Narrative** - F. K. Stanzel 1984-07-19

The purpose of this book is to provide a clear and systematic account of the complexities of fictional narration which result from the shifting relationship in all storytelling between the story itself and the way it is told.

**La Sala Delle Carte Geografiche in Palazzo Vecchio** - Paola Pacetti 2018

This illustrated edition shows the Earth as it was known in the sixteenth century through the maps and images of the Map Room in the Florentine Palazzo Vecchio. Different contributions (by Monica Consoli, Massimo Marcolin, Paola Pacetti, Valentina Zucchi) examine in particular the 53 panels depicting various countries as well as the large central globe. The volume refers to various selections of marvelous or peculiar images included in the room's decorations, which together with the maps reflect the cosmological view of the world and its history during the time of Cosimo Medici I. «This invention and caprice was conceived by Duke Cosimo to bring together all of the things of Heaven and Earth, correctly and without error, and to be able to see and measure them, both separately and all together, for those who delight in studying this wonderful profession...» (Giorgio Vasari) 1st Italian edition: June 2007 1st English edition: December 2014 2nd Italian edition: November 2017

**The Dentist of Auschwitz** - Benjamin Jacobs 2001-01-18

" In 1941 Berek Jakubowicz (now Benjamin Jacobs) was deported from his Polish village and remained a prisoner of the Reich until the final days of the war. His possession of a few dental tools and rudimentary skills saved his life. Jacobs helped assemble V1 and V2 rockets in Buchenwald and Dora-Mittelbau; spent a year and a half in Auschwitz, where he was forced to remove gold teeth from corpses; and survived the RAF attack on three ocean liners turned prison camps in the Bay of Lubeck. This is his story.

A Place in the Country - W.G. Sebald 2014-02-18

A Place in the Country is W. G. Sebald's meditation on the six artists and writers who shaped his creative mind—and the last of this great writer's major works to be translated into English. This edition includes more than 40 pieces of art, all originally selected by W. G. Sebald. This extraordinary collection of interlinked essays about place, memory, and creativity captures the inner worlds of five authors and one painter. In his masterly and mysterious style—part critical essay, part memoir—Sebald weaves their lives and art with his own migrations and rise in the literary world. Here are people gifted with talent and courage yet in some cases cursed by fragile and unstable natures, working in countries inhospitable or even hostile to them. Jean-Jacques Rousseau is conjured on the verge of physical and mental exhaustion, hiding from his detractors on the island of St. Pierre, where two centuries later Sebald took rooms adjacent to his. Eighteenth-century author Johann Peter Hebel is remembered for his exquisite and delicate nature writing, expressing the eternal balance of both the outside world and human emotions. Writer Gottfried Keller, best known for his 1850 novel Green Henry, is praised for his prescient insights into a Germany where "the gap between self-interest and the common good was growing ever wider." Sebald compassionately re-creates the ordeals of Eduard Mörike, the nineteenth-century German poet beset by mood swings, depression, and fainting spells in an increasingly shallow society, and Robert Walser, the institutionalized author whose nearly indecipherable scrawls seemed an attempt to "duck down below the level of language and obliterate himself" (and whose physical appearance and year of death mirrored those of Sebald's grandfather). Finally, Sebald spies a cognizance of death's inevitability in painter Jan Peter Tripp's lovingly exact reproductions of life. Featuring the same kinds of suggestive and unexplained illustrations that appear in his masterworks Austerlitz and The Rings of Saturn, and translated by Sebald's colleague Jo Catling, A Place in the Country is Sebald's unforgettable self-portrait as seen through the experiences of others, a glimpse of his own ghosts alongside those of the men who influenced him. It is an essential addition to his stunning body of work. Praise for A Place in the Country "Measured, solemn, sardonic . . . hypnotic . . . [W. G. Sebald's] books, which he made out of classics, remain classics for now."—Joshua Cohen, The New York Times Book Review "In Sebald's writing, everything is connected, everything webbed together by the unseen threads of history, or chance,

or fate, or death. The scholarly craft of gathering scattered sources and weaving them into a coherent whole is transformed here into something beautiful and unsettling, elevated into an art of the uncanny—an art that was, in the end, Sebald's strange and inscrutable gift."—Slate "Magnificent . . . The multiple layers surrounding each essay are seamless to the point of imperceptibility."—New York Daily News "Sebald's most tender and jovial book."—The Nation "Reading [A Place in the Country is] like going for a walk with a beautifully talented, deeply passionate novelist from Mars."—New York

**The Marijuana Farmers** - Jack Frazier 1974

Soma Divine Mushroom of Immortality - R. Gordon Wasson 2021-02

One of the key enigmas of cultural history has been the identity of a sacred plant called Soma in the ancient Rig Veda of India. Mr. Wasson has aroused considerable attention in learned circles and beyond by advancing and documenting the thesis that Soma was a hallucinogenic mushroom - none other than the Amanita muscaria, the fly-agaric that until recent times was the centre of shamanic rites among the Siberian and Uralic tribesmen. In his presentation he throws fascinating light on the role of mushrooms in religious ritual. A section on the post-Vedic history of Soma is contributed by the Sanskrit scholar Wendy Doniger O'Flaherty. Brian C. Muraresku in his best selling book, The Immortality Key: The Secret History Of The Religion With No Name, used Robert Gordon Wasson's work: Soma The Divine Mushroom Of Immortality as one of his research tools. Brian C. Muraresku's book features a brilliant Foreword by Graham Hancock, the New York Times bestselling author of America Before: The Key to Earth's Lost Civilization. Amanita muscaria or the Fly Agaric is not a well-known mushroom based on its scientific name or common name. Yet, the picture on the left, of this mushroom, will probably be familiar to the reader. In recent time, it is the mushroom that has been adopted as the "prototype" mushroom in western cultures. Its image can be seen in Christmas and greeting cards, children's stories, science fiction and fantasy illustrations, and in mushroom models. There has even been a great deal made of its connections with Christmas, but probably too much has been made of this connection and different interpretations of this theory is available. However, it is more than just a "pretty mushroom". It is a species that is thought to have had tremendous impact on some of today's cultures for at least four thousand years and has been thought by some to be at the root of the origin of some of today's religions. In 1968, Gordon Wasson put forth the concept that this mushroom was the "plant" that was referred to as Soma, in his now much cited "Soma, Divine Mushroom of Immortality". Wasson believed Soma was the mushroom that was utilized in religious ceremonies, over 4000 years ago, before the beginning of our Christian era, by the people who called themselves "Aryans". Wasson also believed the hallucinogenic properties of the A. muscaria to be the cause of the "ecstasy" described in the Rig Veda, the holy book of the Hindu.
