Passion for History - Natalie Zemon Davis 2010-01-25

The pathbreaking work of renowned historian Natalie Zemon Davis has added profoundly to our understanding of early modern society and culture. She rescues men and women from oblivion using her unique combination of rich imagination, keen intelligence, and archival sleuthing to uncover the past. Davis brings to life a dazzling cast of extraordinary people, revealing their thoughts, emotions, and choices in the world in which they lived. Thanks to Davis we can meet the impostor Arnaud du Tilh in her classic, *The Return of Martin Guerre*, follow three remarkable lives in *Women on the Margins*, and journey alongside a traveler and scholar in *Trickster Travels* as he moves between the Muslim and Christian worlds. In these conversations with Denis Crouzet, professor of history at the Sorbonne and well-known specialist on the French Wars of Religion, Natalie Zemon Davis examines the practices of history and controversies in historical method. Their discussion reveals how Davis has always pursued the thrill and joy of discovery through historical research. Her quest is influenced by growing up Jewish in the Midwest as a descendant of emigrants from Eastern Europe. She recounts how her own life as a citizen, a woman, and a scholar compels her to ceaselessly examine and transcend received opinions and certitudes. Davis reminds the reader of the broad possibilities to be found by studying the lives of those who came before us, and teaches us how to give voice to what was once silent.

[Exploring Capitalist Fiction](#) - Edward W. Younkens 2013-10-24

Fiction, including novels, plays, and films, can be a powerful force in educating students and employees in ways that lectures, textbooks, articles, case studies, and other traditional teaching approaches cannot. Works of fiction can address a range of issues and topics, provide detailed real-life descriptions of the organizational contexts in which workers find themselves, and tell interesting, engaging, and memorable stories that are richer and more likely to stay with the reader or viewer longer than lectures and other teaching approaches. For these reasons, *Exploring Capitalist Fiction: Business through Literature and Film* analyzes 25 films, novels, and plays that engage the theories, concepts, and issues most relevant to the business world. Through critical examinations of works such as *Atlas Shrugged* and *Wall Street*, Younkens shows how fiction is a powerful teaching tool to sensitize business students without business experience and to educate and train managers in real businesses.

Istanbul - Thomas F. Madden 2016-11-22

One of Time's 12 Books for the History Buffs on Your Holiday Gift List

The first single-volume history of Istanbul in decades: a biography of the city at the center of civilizations past and present. For more than two millennia Istanbul has stood at the crossroads of the world, perched at the very tip of Europe, gazing across the shores of Asia. The history of this city--known as Byzantium, then Constantinople, now Istanbul--is at once glorious, outsized, and astounding. Founded by the Greeks, its location blessed it as a center for trade but also made it a target of every empire in history, from Alexander the Great and his Macedonian Empire to the Romans and later the Ottomans. At its most spectacular Emperor Constantine I re-founded the city as New Rome, the capital of the eastern Roman empire, and dramatically expanded the city, filling it with artistic treasures, and adorning the streets with opulent palaces. Around it all Constantine built new walls, truly impregnable, that preserved power, wealth, and withstood any aggressor--walls that still stand for tourists to visit. From its ancient past to the present, we meet the city through its ordinary citizens--the Jews, Muslims, Italians, Greeks, and Russians who used the famous baths and walked the bazaars--and the rulers who built it up and then destroyed it, including Mustafa Kemal Ataturk, the man who christened the city "Istanbul" in 1930. Thomas F. Madden's entertaining narrative brings to life the city we see today, including the rich splendor of the churches and monasteries that spread throughout the city. Istanbul draws on a lifetime of study and the latest scholarship, transporting readers to a city of unparalleled importance and majesty that holds the key to understanding modern civilization. In the words of Napoleon Bonaparte, "If the Earth were a single state, Istanbul would be its capital."

Principles and Practice in Second Language Acquisition - Stephen D. Krashen 1982

The present volume examines the relationship between second language practice and what is known about the process of second language acquisition, summarising the current state of second language acquisition theory, drawing general conclusions about its application to methods and materials and describing what characteristics effective materials should have. The author concludes that a solution to language teaching lies not so much in expensive equipment, exotic new methods, or sophisticated language analysis, but rather in the full utilisation of the most important resources - native speakers of the language - in real communication.

Edward Albee's At Home at the Zoo - Edward Albee 2008

When you emerge from this impish comic playwright's glittering tribute to Molière, written entirely in verse, your head will be so dizzy with syncopated rhyme that you'll almost expect to find yourself speaking and thinking in chiming couplets...[Ives] add The truism that families come in all shapes and sizes is illuminated with haunting beauty...in this exquisitely wrought comedy-drama...a piercing portrait of the contemporary social architecture, in which the distance between people can be widened or collap

London Bridge in Plague and Fire - David Madden 2012-09-30

"I am still living on London Bridge myself. The world of this novel has merged with my life. Under Madden's pen, the web of human connection is woven over water, through space, and beyond time." —Allen Wier, author of *Tehano* For more than two thousand years, Old London Bridge evolved through many fragile wooden forms until it became the first bridge built of stone since the Roman invaders. With over two hundred houses and shops built directly upon the bridge, it was a wonder of the world until it was dismantled in 1832. In this stunningly original novel, Old London Bridge is as much a living, breathing character as its architect, the priest Peter de Colechurch, who began work on it in 1176, partly to honor Archbishop Thomas à Becket, murdered in Canterbury Cathedral. In 1665, the year of the Great Plague, Peter's history is unknown, but Daryl Braintree, a young poet living on the bridge, resurrects him through inspired flights of imagination. As Daryl

chronicles the history of the bridge and composes poems about it, he reads his work to his witty mistress, who prefers making love. Among other key characters is Lucien Redd, who as a boy was sexually brutalized by both Puritans and Cavaliers during the English Civil War before being kidnapped off London Bridge onto a merchant ship. Thus traumatized, he aspires to become Lucifer's most evil disciple. Twenty years later, young Morgan Wood is forced into seafaring service to pay off his father's debts; and, compelled by obsessive nostalgia for his early life on the bridge, he keeps a journal. Joining Morgan aboard ship, Lucien "befriends" him—to devastating effect. The shops and houses on the bridge survive both the Great Plague and Great Fire, believed to be God's wrath upon sinful London. Fearing that God may next destroy the bridge and its eight hundred denizens, seven of its merchant leaders revert to a pagan appeasement ritual by selecting one of their virgin daughters for sacrifice. To enact their plan, they hire Lucien, who has returned to the bridge to burn it out of pure meanness. But as Lucien discovers, the chosen victim may be more Lucifer's favorite than he is. Like his creation Daryl Braintree, David Madden employs diverse innovative ways to tell this complex, often shocking, but also lyrical story. The author of ten novels—including *The Suicide's Wife*, *Bijou*, and most recently, *Abducted by Circumstance* and *Sharpshooter*—Madden has, with *London Bridge in Plague and Fire*, given us the most ambitious and imaginative work of his distinguished career.

Voice in Later Medieval English Literature - David Lawton
2016-12-22

David Lawton approaches later medieval English vernacular culture in terms of voice. As texts and discourses shift in translation and in use from one language to another, antecedent texts are revoiced in ways that recreate them (as 'public interiorities') without effacing their history or future. The approach yields important insights into the voice work of late medieval poets, especially Langland and Chaucer, and also their fifteenth-century successors, who treat their work as they have treated their precursors. It also helps illuminate vernacular religious writing and its aspirations, and it addresses literary and cultural change, such as the effect of censorship and increasing political instability in and beyond the fifteenth century. Lawton also proposes his emphasis on voice as a literary tool of broad application, and his book has a bold and comparative sweep that encompasses the Pauline letters, Augustine's Confessions, the classical precedents of Virgil and Ovid, medieval contemporaries like Machaut and Petrarch, extra-literary artists like Monteverdi, later poets such as Wordsworth, Heaney and Paul Valéry, and moderns such as Jarry and Proust. What justifies such parallels, the author claims, is that late medieval texts constitute the foundation of a literary history of voice that extends to modernity. The book's energy is therefore devoted to the transformative reading of later medieval texts, in order to show their original and ongoing importance as voice work.

L.M. Montgomery and the Matter of Nature(s) - Rita Bode
2018-04-30

L.M. Montgomery's writings are replete with enchanting yet subtle and fluid depictions of nature that convey her intense appreciation for the natural world. At a time of ecological crises, intensifying environmental anxiety, and burgeoning eco-critical perspectives, L.M. Montgomery and the Matter of Nature(s) repositions the Canadian author's relationship to nature in terms of current environmental criticism across several disciplines, introducing a fresh approach to her life and work. Drawing on a wide range of Montgomery's novels as well as her journals, this collection suggests that socio-ecological relationships encompass ideas of reciprocity, affiliation, autonomy, and the capacity for transformation in both the human and more-than-human worlds, and that these ideas are integral to Montgomery's vision and her literary legacy. Framed by the twin themes of materiality and interrelationships, essays by scholars of literature, law, animal studies, anthropology, and ecology examine place, embodiment, and difference in Montgomery's works and embrace the multiplicities embedded in the concept of nature. Through innovative critical approaches, L.M. Montgomery and the Matter of Nature(s) opens up conversations about humans' interactions with nature and the

material environment.

As a child, Madden lived a life of extravagance, from her exclusive private school to her equestrian trophies and designer shoe-brand name. But under the surface was a wild instability. The only child of parents continually battling drug and alcohol addictions, Madden confronted her environment alone. Facing a culture of assault and objectification, she found lifelines in the desperately loving friendships of fatherless girls. With unflinching honesty and lyrical prose, spanning from 1960s Hawai'i to the present-day struggle of a young woman mourning the loss of a father while unearthing truths that reframe her reality, *Long Live the Tribe of Fatherless Girls* is equal parts eulogy and love letter.
