How to Be a Positive Kid - Caleb Maddix 2018-07-30

"Trust me, I know what it was like to not be positive. About eight years ago, I was one of the most negative kids in my school. Always trying to find something to complain about, or letting other people affect my mood. But then, I had a huge mindset change. I realized that there were a few things I could do to have a positive attitude. And because of this, I decided to write a book about it to help as many people as possible. I named it "How To Be A Positive Kid." In this book your kids will learn:

- How to show gratitude and complain less.
- How to look at the good rather than the bad.
- The power of your mind and emotions.
- Why it is never a good idea to throw tantrums or have bad attitudes.
- How to deal with negative friends and family.
- The "Foods Affect Moods" theory.
- Why playing video games & watching TV is bad for your kid..
- And MUCH MUCH more."

How Money Walks - How \$2 Trillion Moved Between the States, and Why It Matters -

Between 1995 and 2010, millions of Americans moved between the states, taking with them over \$2 trillion in adjusted gross incomes. Two trillion dollars is equivalent to the GDP of California, the ninth largest in the world. It's a lot of money. Some states, like Florida, saw tremendous gains (\$86.4 billion), while others, like New York, experienced massive losses (\$58.6 billion). People moved, and they took their working wealth with them. The question is, why? Why did Americans move so much of their income from state to state? Which states benefitted and which states suffered? And why does it matter? Using official statistics from the IRS, *How Money Walks* explores the hows, whys, and impact of this massive movement of American working wealth. Consider these facts.

Between 1995 and 2010: The nine states with no personal income taxes gained \$146.2 billion in working wealth The nine states with the highest personal income tax rates lost \$107.4 billion The 10 states with the lowest per capita state-local tax burdens gained \$69.9 billion The 10 states with the highest per capita state-local tax burdens lost \$139 billion

Money—and people—moved from high-tax states to low-tax ones. And the tax that seemed to matter the most? The personal income tax. The states with no income taxes gained the greatest wealth, while the states with the highest income taxes lost the most. Why does this matter? Because the robust presence of working wealth is the leading indicator of economic health. The states that gained working wealth are growing and thriving. The states that lost working wealth lost their most precious cargo—their tax base—and the consequences are dire: stagnation, deterioration, an economic death spiral as they continue to raise taxes and lose people, businesses, and working wealth. The numbers don't lie.

_____ “When I read *How Money Walks*, I thought, ‘It’s about time.’ Finally, we have a book that addresses one of our nation’s most critical (yet rarely discussed) fiscal issues: the migration of working wealth as a direct result of personal income tax rates. Brown’s book paints a clear portrait of where money goes and why. *How Money Walks* should be required reading for anyone who wants to understand why some states struggle to retain people and businesses while others welcome billions of new dollars each year.” Dr. Arthur Laffer Founder and chairman, Laffer Associates and Laffer Investments Former economic advisor to President Ronald Reagan

Money-Smart Kids - Gail Vaz-Oxlade 2011-08-23
As a parent, you want the best for your kids. You work hard to provide them with every advantage. You want them to be safe, smart and healthy. Yet when it comes to money, it’s a whole different story. If you’re like most people, you’d rather run a mile through a desert with a camel on your back than talk about money with your children. Are you going to follow in your parents’ footsteps, keeping financial matters a deep, dark secret? Or do you want your children to have a healthy, balanced attitude toward money? Then it’s time to pull your head out of the sand and roll up your sleeves. Gail Vaz-Oxlade, Canada’s #1 personal finance expert, believes that teaching kids about money is a parent’s job. She knows that building confidence and money skills starts with an age-appropriate allowance to help your kids accomplish important tasks: Making saving a habit Learning the difference between needs and wants Using the “magic jars” to balance competing goals Creating lifelong money management skills What better gift could you give your children than the confidence to control their money, rather than letting their money control them? Let

Gail help you raise “Money-Smart Kids.”

How to Make Money as a Kid - Caleb Maddix 2018-07-30
Imagine your kid being 18, having enough money to pay for their college education, living on their own, and having the car of their dreams. Hey, my name is Caleb Maddix and for a while I thought this was impossible, until I had a life changing experience. I was over at my friends house, and we were on the couch hanging out. But than, his friends mom walked up to him, and handed him a piece of paper. I looked at it, and realized that it was a TWENTY DOLLAR BILL! I asked him how he got the \$20, and he said that he did something called "chores.." Everytime he threw out the trash, or cleaned up his room, he got \$20. I felt SCAMMED, and ran home, asking my dad if I could be paid to do chores. And he said.. NO! I was shocked! Didn't he want me to have good work ethic? Didn't he want me to grow up and be self sufficient? He said however, that he would pay me \$20 for every single SUCCESS BOOK that I read. So I started reading different success books, and before you knew it I started

making money from what I learned in the books. And as soon as this happened, I realized IT IS possible to make money as a kid... After using all that I have learned, and literally becoming a self made millionaire by age 16 I decided to write a book for kids teaching them how to do the same.

How to Earn Money - Ryan P. Randolph 2013-07-15

Explains how children can make money, be smart about saving, and find a job that they can enjoy.

The Opposite of Spoiled - Ron Lieber 2015-02-03

New York Times Bestseller “We all want to raise children with good values—children who are the opposite of spoiled—yet we often neglect to talk to our children about money. . . . From handling the tooth fairy, to tips on allowance, chores, charity, checking accounts, and part-time jobs, this engaging and important book is a must-read for parents.” — Gretchen Rubin, author of *The Happiness Project* In the spirit of Wendy Mogel’s *The Blessing of a Skinned Knee* and Po Bronson and Ashley Merryman’s *Nurture Shock*, New York Times “Your Money” columnist Ron Lieber delivers a taboo-shattering manifesto that explains how talking openly to children about money can help parents raise modest, patient, grounded young adults who are financially wise beyond their years For Ron Lieber, a personal finance columnist and father, good parenting means talking about money with our kids. Children are hyper-aware of money, and they have scores of questions about its nuances. But when parents shy away from the topic, they lose a tremendous opportunity—not just to model the basic financial behaviors that are increasingly important for young adults but also to imprint lessons about what the family truly values. Written in a warm, accessible voice, grounded in real-world experience and stories from families with a range of incomes, *The Opposite of Spoiled* is both a practical guidebook and a values-based philosophy. The foundation of the book is a detailed blueprint for the best ways to handle the basics: the tooth fairy, allowance, chores, charity, saving, birthdays, holidays, cell phones, checking accounts, clothing, cars, part-time jobs, and college tuition. It identifies a set of traits and virtues that embody the opposite of spoiled,

and shares how to embrace the topic of money to help parents raise kids who are more generous and less materialistic. But *The Opposite of Spoiled* is also a promise to our kids that we will make them better with money than we are. It is for all of the parents who know that honest conversations about money with their curious children can help them become more patient and prudent, but who don’t know how and when to start.

And then there are a ton of murderers, rapists, hit men, con men, stickup men, embezzlers, connivers, burglars, kidnappers and maybe even an innocent man or two, though I doubt it.
